Start Your Career in Artificial Intelligence

2026 Artificial Intelligence Course With Eduden

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Applied AI in Healthcare, Finance & Marketing - 45 Days Industry-Focused Course

Master the Practical Side of Artificial Intelligence by Solving Real-World Problems in the Domains That Matter Most

This course is built for working professionals, career switchers, entrepreneurs, and advanced learners who want to apply AI in real business contexts. Instead of just learning models, you'll learn how AI is transforming healthcare diagnostics, financial fraud detection, and AI-driven marketing automation — and you'll build projects for each.

Perfect for those who don't just want to "train models," but want to actually solve problems with AI in real-world environments.

Duration: 45 Days

Format: Hybrid (Online & Offline at Eduden, Kolkata)

Level: Intermediate

Track: Applied Artificial Intelligence, Industry AI, Practical AI Use Cases

Tools Covered: Python, Scikit-learn, Pandas, Keras, Power BI, Streamlit, OpenAI API (for AI-enhanced UX), Google Trends, BigQuery

Course Objective

To help learners understand how AI is transforming the world's biggest industries and give them the tools to build intelligent solutions across domains like healthcare, fintech, and digital marketing.

Who Can Join

- Professionals in healthcare, marketing, finance
- ML/DS students who want domain-specific expertise
- Business owners & consultants exploring AI automation
- Entrepreneurs building AI-based SaaS products

Course Curriculum

Module 1

AI in Healthcare

- Disease prediction models (heart, diabetes, cancer)
- Medical imaging classification
- Patient risk score prediction
- Hands-on: Train a model to predict diabetes from patient data
- Bonus: Explore Hugging Face's BioBERT model for medical NLP

Module 2

AI in Finance (FinTech)

- Credit scoring, loan eligibility models
- Fraud detection using anomaly detection
- Stock price trend prediction (intro with LSTM)
- Hands-on: Build a transaction fraud detection model

Module 3

AI in Digital Marketing

- Customer segmentation with clustering
- Ad copy + SEO optimization with Generative AI
- Predictive analytics for lead scoring
- Hands-on: Use OpenAI + sklearn to create a personalized email tool

Module 4

Building & Presenting Business Projects

- Dashboards with Power BI or Streamlit
- Business problem framing + storytelling
- Final Project (choose one domain):
    1. Predictive analytics in healthcare
    2. Fraud detection system in finance
    3. AI-powered lead generation tool
- Submit: GitHub repo + report + pitch-style PPT

Certification

- Eduden Certificate in Applied AI (Healthcare, FinTech & Marketing)
- Based on final project + participation
- Portfolio-ready project with domain + tech insights

Career Roles You'll Be Ready For

- AI Solutions Architect (Domain-focused)
- Data Analyst or Scientist (in Health, Finance, or Marketing)
- Technical Product Manager (AI-powered products)
- AI Consultant / Freelancer (use-case driven)
- Entrepreneur or Intrapreneur using AI

Course Highlights

- 45 Days of Hands-On AI in Real Business Contexts
- Best Applied AI Course in India – Focused on Industry Use Cases
- Projects Across FinTech, HealthTech & MarTech
- Certificate from Eduden – India's Industry-Aligned AI Institute
- Hybrid Format – Online & Offline in Kolkata
- Use Python, OpenAI, BI Dashboards, and More
- Great for Working Professionals, Analysts & Founders
- Final Project Portfolio with Business-Ready Solutions
