Start Your Career in Artificial Intelligence

2026 Artificial Intelligence Course With Eduden

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Generative AI & Prompt Engineering - 45 Days Hands-On Course

Master the Future of AI by Learning How to Talk to It – Build AI Tools, Automate Workflows, and Create Real Projects Using GPT, Claude & Other LLMs

This course is designed for students, developers, content creators, freelancers, marketers, and anyone who wants to harness the power of Generative AI — without needing a PhD in AI or tons of math.
You'll learn how large language models (LLMs) like GPT-4, Claude, Gemini, and LLaMA work, how to write better prompts, and how to build real tools and apps using GenAI APIs, prompt frameworks, and no-code/low-code integrations.

Duration: 45 Days

Format: Hybrid (Online & Offline at Eduden, Kolkata)

Level: Beginner to Intermediate

Track: Generative AI, Applied LLMs, AI Automation

Tools Covered: ChatGPT, Claude, Gemini, GPT-4, OpenAI API, LangChain, Notion AI, Replit, PromptLayer, Midjourney (overview), Google Bard

Course Objective

To help learners understand how to interact with, customize, and build tools using large language models (LLMs). The focus is on practical prompt design, chaining prompts, building chatbots, and using GenAI tools to create value — whether you're coding, designing, selling, or solving business problems.

Who Can Join

- Anyone curious about ChatGPT, AI tools, or building with LLMs
- Students and professionals (no coding experience required)
- Freelancers and content creators
- Developers, marketers, analysts, educators

SEO Keywords Included

- Generative AI course in India 2026
- best prompt engineering training in Kolkata
- ChatGPT and LLM-based automation hands-on
- learn GPT and AI tools for business and code
- build apps with OpenAI, Claude, Gemini
- Eduden Generative AI and prompt engineering course

Course Curriculum

Module 1

Foundations of Generative AI & LLMs

- What is Generative AI?
- Introduction to LLMs (GPT-4, Claude, LLaMA, Gemini)
- Tokenization, temperature, context window
- Hands-on: Explore capabilities of ChatGPT vs Claude

Module 2

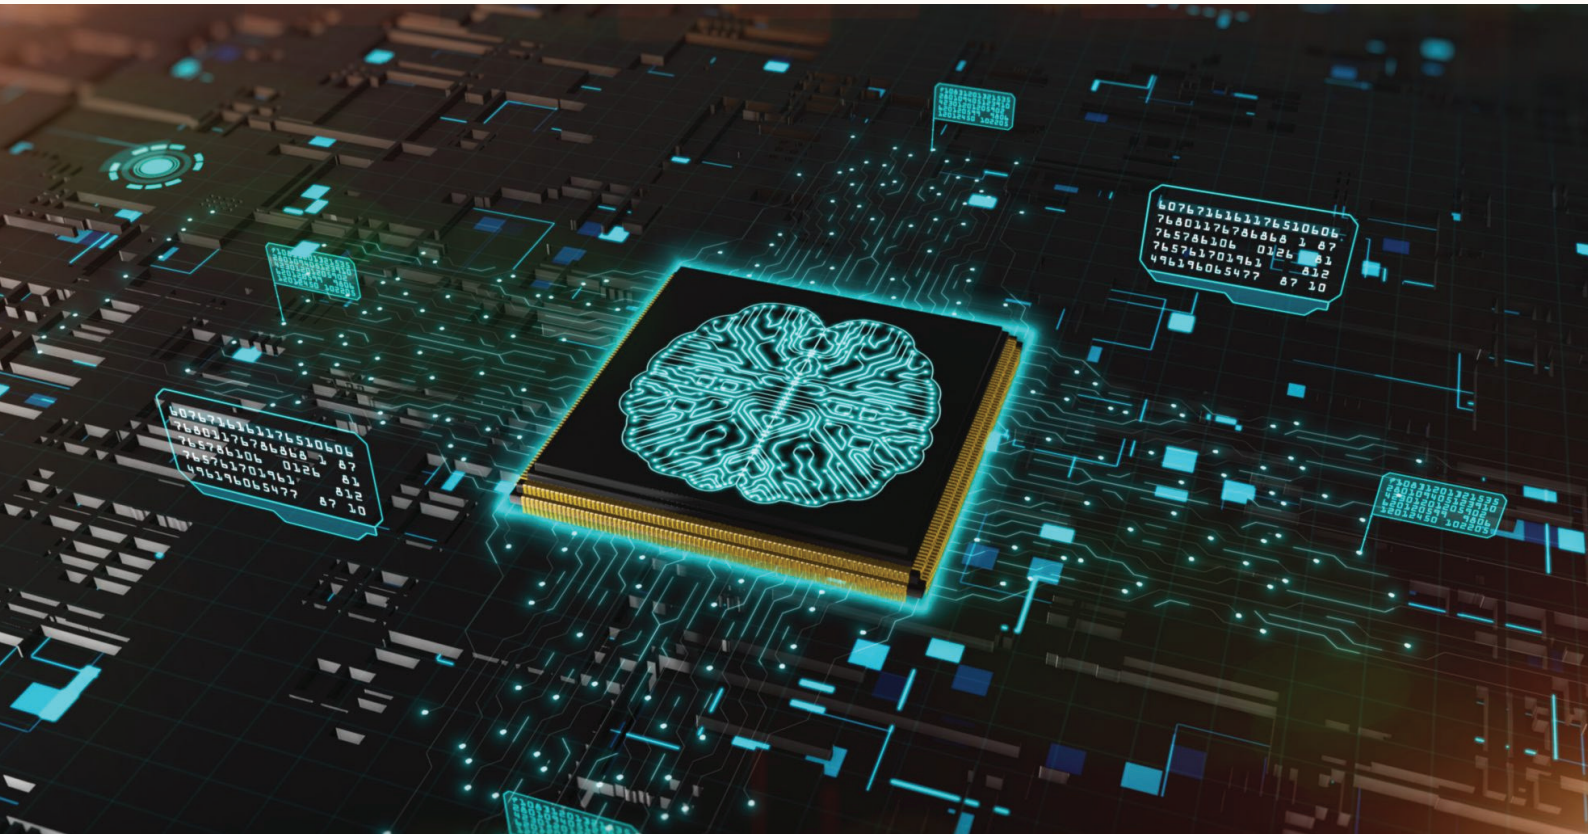

Prompt Engineering 101

- Types of prompts: zero-shot, few-shot, chain-of-thought
- Role prompting, system instructions, task templating
- Prompt debugging and improvement
- Hands-on: Create a multi-step assistant using ChatGPT

Module 3

Using LLMs for Productivity & Content

- Automate writing, research, social media, email
- Notion AI, Canva AI, Jasper, Copy.ai
- AI in marketing, customer service, SEO
- Hands-on: Generate blog content, ad copy, and business ideas

Module 4

Building with OpenAI API & LangChain

- API keys, endpoints, JSON formatting
- Basic scripting with Replit or Python + OpenAI API
- LangChain overview for prompt chaining + memory
- Hands-on: Build a Q&A chatbot using GPT-4 + LangChain

Module 5

Integrating GenAI into Real Workflows

- Zapier/Make + GPT for automation
- Form-to-prompt workflows (e.g. lead generation, resume writer)
- AI-based feedback loops for business ops
- Hands-on: Create a workflow that uses AI to auto-reply to emails

Module 6

Final Projects & Real-World Use Cases

Choose 1 Final Project (with guidance):

- Build your own AI Assistant (like a legal/chat support bot)
- Create a resume analyzer & builder tool
- Design an AI business idea generator
- Launch a ChatGPT-powered personal website/blog

Deploy on Replit, Notion, or Vercel
Present via GitHub/Notion/GDocs + pitch deck

Certification

- Eduden Certificate in Generative AI & Prompt Engineering
- Project-based assessment + prompt workbook submission
- Bonus: Guide to advanced LLM apps, freelancing, and monetization

Career Roles You'll Be Ready For

- Generative AI Specialist
- Prompt Engineer
- AI Product Consultant
- Chatbot Developer (Non-coding + low-code)
- Freelance AI Tool Builder
- AI Marketing/SEO Strategist

Course Highlights

- 45 Days of Hands-On Generative AI Practice
- Learn ChatGPT, Claude, Bard, Midjourney, OpenAI API
- Best Prompt Engineering Course in India
- Build Tools Without Needing to Code (or Do Advanced Math)
- Create a Real Project with AI Assistant or Business Tool
- Certificate from Eduden – India's #1 Practical AI Institute
- Resume + GitHub/Notion Project Portfolio
- Hybrid Format – Online or Offline at Eduden, Kolkata
- Great for Students, Creators, and Freelancers
