2026 App Development Course With Eduden

Start Your Career in App Development

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Flutter App Development - 60 Days Hands-On Training

Course Objective

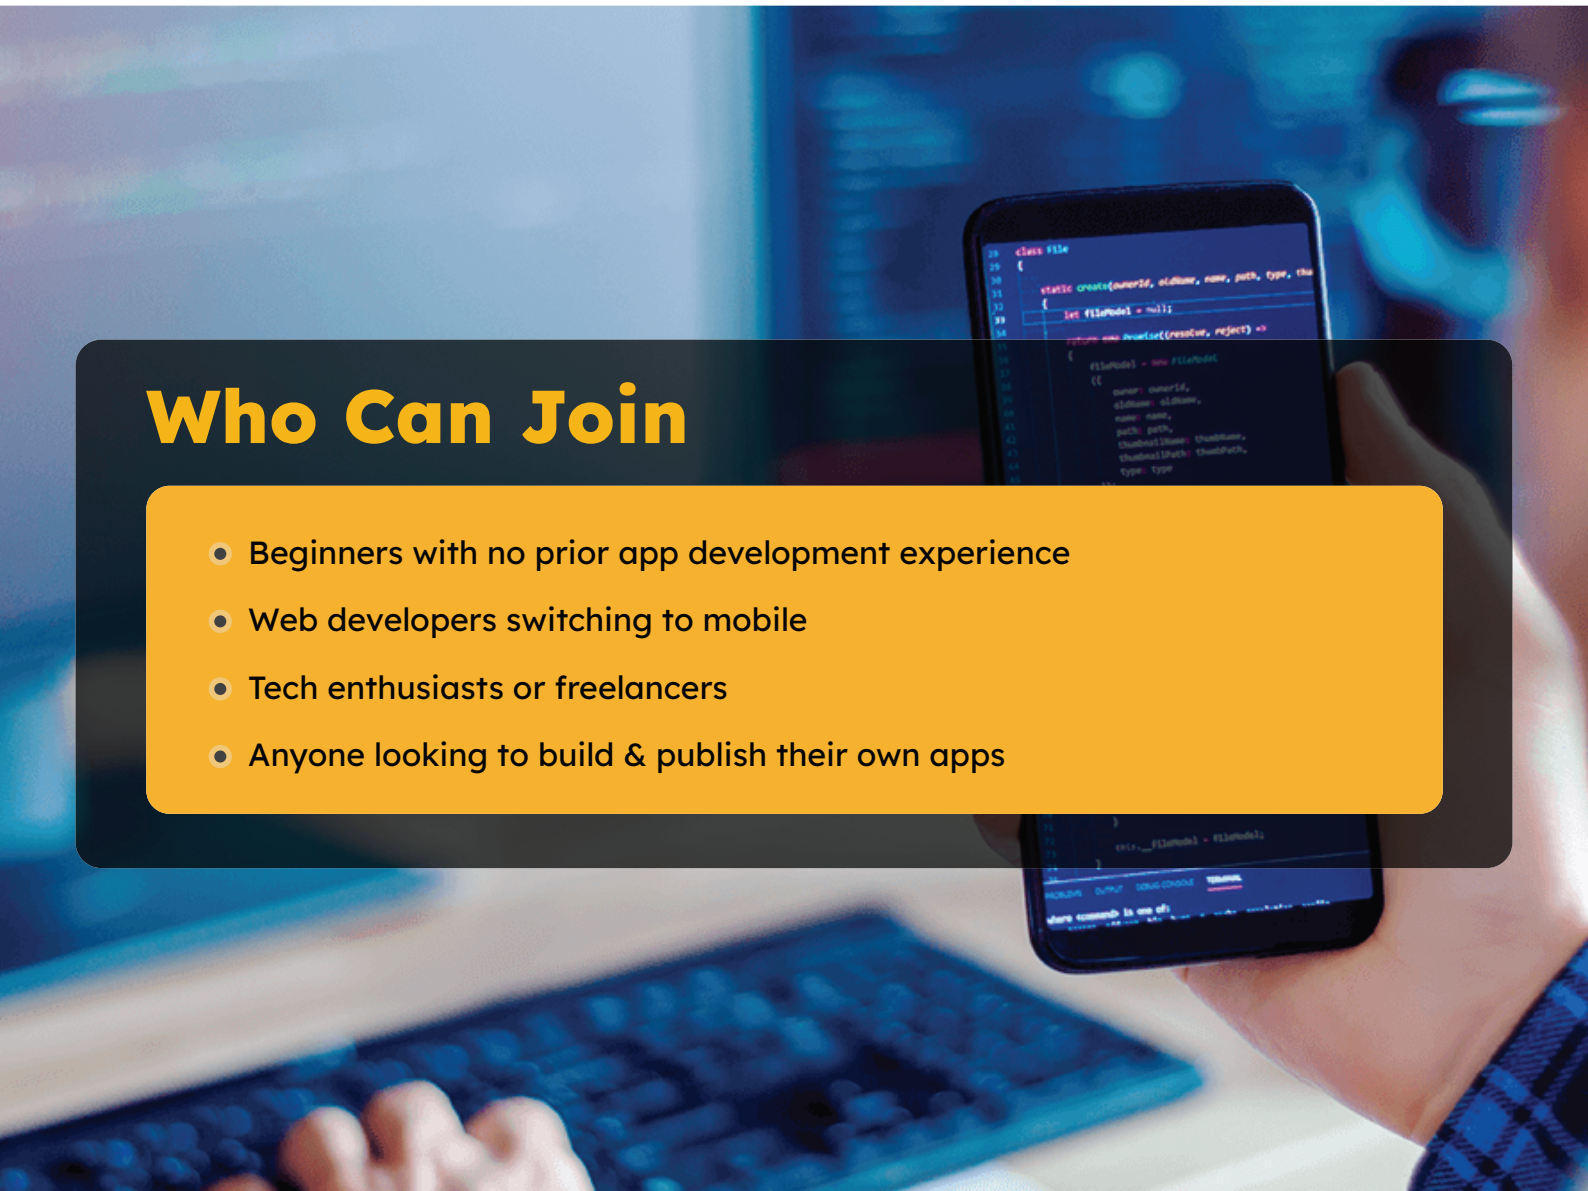

To teach you how to build modern, responsive, real-world mobile applications using Flutter & Dart, and deploy them on Android, iOS, and Web — all with a single codebase.
This is the perfect course for students, freelancers, and developers who want to enter the cross-platform mobile app market, without learning separate native languages for each OS.

Duration: 60 Days

Format: Hybrid (Online or Offline at Eduden, Kolkata)

Level: Beginner to Intermediate

Tools Covered: Ethereum, Solidity, MetaMask, Hardhat, web3.js, IPFS, OpenZeppelin

Who Can Join

- Beginners with no prior app development experience
- Web developers switching to mobile
- Tech enthusiasts or freelancers
- Anyone looking to build & publish their own apps

What You'll Learn

Module 1

Introduction to Flutter & Dart

- Installing Flutter SDK & VS Code/Android Studio
- Understanding Widgets, Hot Reload, Project Structure
- Dart Basics: Variables, Functions, Loops, Classes
- Hands-on: Hello World App with Custom Text + Colors

Module 2

UI Design & Layouts

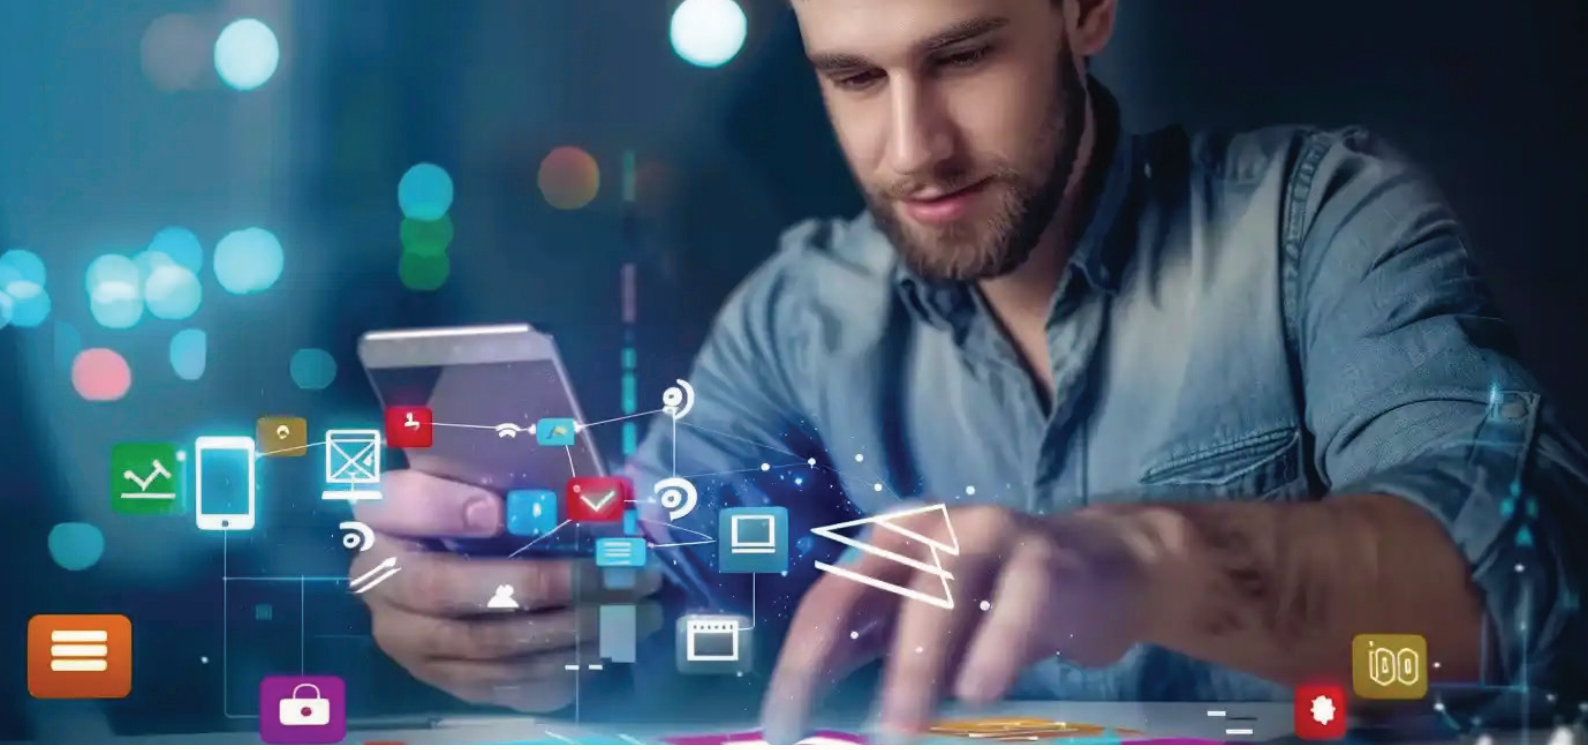

- Flutter Widgets: Column, Row, Stack, Container
- Images, Fonts, Icons, and Asset Management
- Scaffold, AppBar, BottomNavigationBar
- Navigation between screens
- Hands-on: Build a travel info app with multiple pages

Module 3

State Management & Forms

- State management with setState, Provider (Intro)
- Forms, Validation, Input Handling
- Snackbars, Alerts, Toasts
- Hands-on: Create a login/signup form with validation

Module 4

Working with APIs & Firebase

- Fetching data using HTTP
- Displaying dynamic content (ListView, GridView)
- Connecting to Firebase (Intro)
- Realtime database or Firestore (Read & Write)
- Hands-on: Create a weather app or blog reader using live API

Module 5

App Deployment & Final Project

- Building for Android & Web
- APK generation and device testing
- Play Store deployment walkthrough
- Final Project: Capstone App (Chat, Store, or Booking App)
- Bonus: Intro to Push Notifications + Animations

Career Support

- Resume & Portfolio App Guidance
- GitHub Setup + Uploading Source Code
- Freelancing Tips (Upwork, Fiverr, Client Work)
- Interview Prep for Flutter Roles

Projects You'll Build

- Travel Info App
- Login System
- Live News/Blog Reader
- Firebase Todo or Notes App
- Final Capstone Project (Choose your own concept)

Certification

- Eduden Flutter App Development Certificate
- GitHub-hosted project portfolio
- Completion badge + LinkedIn recommendation (based on performance)

Course Highlights

- 60-Day Flutter App Development Course
- Build Android, iOS & Web Apps with One Codebase
- Best Flutter Training in Kolkata & India
- Certificate from Eduden – Skill-First Tech Institute
- Hybrid Format – Online or Offline
- Build 5+ Apps Including API & Firebase
- Resume, GitHub & App Publishing Support
