2026 App Development Course With Eduden

Start Your Career in App Development

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Mobile App Development with React Native - 60 Days Hands-On Training

Course Objective

To help you master cross-platform mobile app development using React Native — one of the most in-demand frameworks globally. You'll learn to build smooth, beautiful, and real-world apps using JavaScript + React, and deploy them on Android and iOS devices — all with one codebase.
This is a practical, portfolio-ready program that prepares you for real jobs, freelance gigs, or launching your own mobile app.

Duration: 60 Days

Format: Hybrid (Online or Offline at Eduden, Kolkata)

Level: Beginner to Intermediate

Who Can Join

- Anyone with basic knowledge of JavaScript or React
- Frontend developers transitioning to mobile
- Freelancers, students, or job-seekers
- Tech entrepreneurs or startup enthusiasts

What You'll Learn

Module 1

Getting Started with React Native & Expo

- Installing React Native with Expo
- Project structure, debugging tools
- Understanding components, JSX, and styling
- Hands-on: Build a “Hello App” with custom UI

Module 2

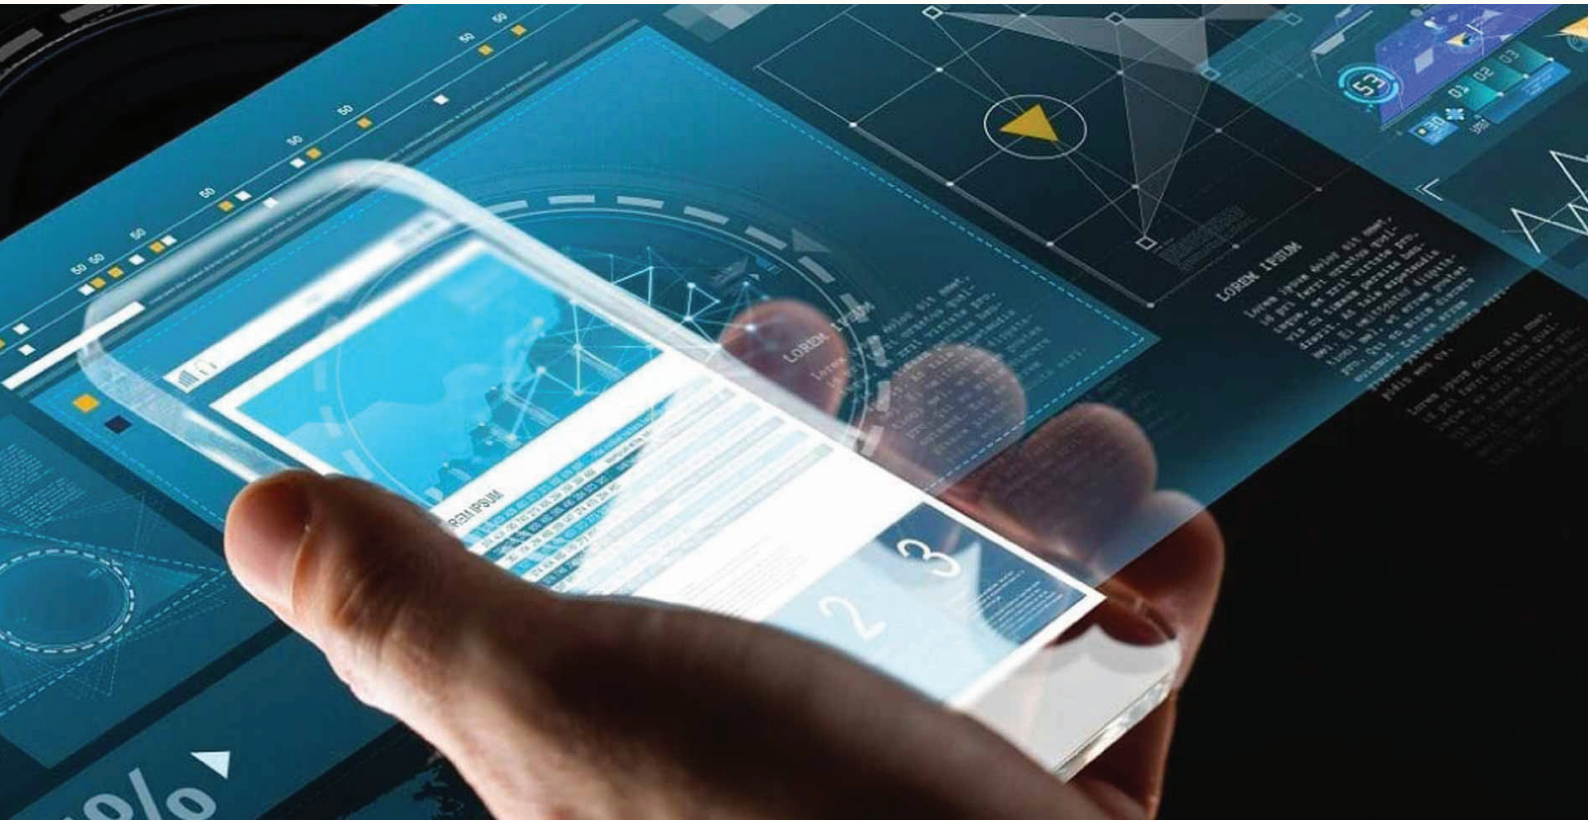

Core Components & Navigation

- View, Text, Image, Button, ScrollView, FlatList
- Styling with Flexbox
- React Navigation: Stack, Tab, Drawer
- Hands-on: Build a multi-screen travel guide app

Module 3

State Management & Forms

- useState, useEffect, and Context API
- Form inputs, validation, and alerts
- Conditional rendering
- Hands-on: Create a login/signup app with form validation

Module 4

APIs & Async Data

- Fetching data with fetch & axios
- Displaying dynamic content
- AsyncStorage and local data caching
- Hands-on: Build a blog/news reader using live API

Module 5

Advanced Features + Final Project

- Firebase integration (basic auth / Firestore)
- Push notifications (intro)
- App optimization and testing
- Building APK / iOS build with Expo
- Final Project: Capstone App (e.g. Task Manager, E-Commerce, or Chat App)

Career Support

- Resume + GitHub review
- Publish your app to Play Store (guide included)
- Freelance app project tips & platforms
- Interview preparation for React Native roles

Projects You'll Build

- Travel Info App
- Auth System with Validation
- Live News Reader
- Firebase Notes or Chat App
- Capstone Project – Your Own Concept

Certification

- Eduden Certificate in React Native Mobile App Development
- Completion badge & project showcase
- GitHub-hosted source code + deployment support

Course Highlights

- 60 Days of React Native Training – Beginner Friendly
- Build Real Mobile Apps for Android & iOS
- Best Cross-Platform App Course in India
- Certificate from Eduden – Tech-first Institute in Kolkata
- 5+ App Projects + One Final Capstone
- Firebase, API, Navigation, Deployment Covered
- Resume & Career Prep Support
- Attend Online or Offline
