2026 App Development Course With Eduden

Start Your Career in App Development

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

iOS App Development with Swift – 60 Days Hands-On Training

Course Objective

To equip you with the skills and tools to design, develop, and publish beautiful, responsive, and functional iOS applications using Swift and Xcode. From writing your first line of Swift code to submitting your app on the App Store, we cover everything hands-on.

This is perfect for students, developers, or entrepreneurs who want to tap into Apple's growing mobile market with confidence.

Duration: 60 Days

Format: Hybrid (Online or Offline at Eduden, Kolkata)

Level: Beginner to Intermediate

Who Can Join

- Beginners with no prior app development experience
- Students, freelancers, or anyone interested in the Apple ecosystem
- Android developers or frontend devs looking to go cross-platform
- Tech enthusiasts ready to explore Swift & iOS

What You'll Learn

Module 1

Introduction to iOS & Swift

- Setting up Xcode & iOS Simulator
- Intro to Swift syntax: Variables, Constants, Functions
- Control Flow, Loops, Optionals
- Hands-on: “Hello iPhone” app with custom styles

Module 2

iOS App Structure & UI Design (UIKit)

- Views, ViewControllers, Storyboards
- AutoLayout & Responsive UI
- Buttons, TextFields, Labels, Sliders
- Navigation Controllers & Tab Bars
- Hands-on: Build a multipage weather or quote app

Module 3

Working with Data & APIs

- Using URLSession to fetch API data
- JSON parsing & decoding with Codable
- Displaying dynamic data in TableViews
- Hands-on: News reader or movie browser app

Module 4

Advanced Features + Final Project

- Forms & User Input
- Data Persistence with UserDefaults & CoreData (intro)
- Basic animation, alerts, gesture recognizers
- Deploying apps to device & App Store basics
- Final Project: Capstone iOS App (To-Do, Budget Tracker, Notes, etc.)

Career Support

- Resume & LinkedIn optimization
- GitHub and portfolio help
- iOS developer interview prep
- App Store Publishing Guidance (with demo)

Projects You'll Build

- Custom Quote App
- Multi-Page Weather or Info App
- Live News Reader using REST API
- To-Do List or Daily Planner App
- Capstone App (you choose your own idea)

Certification

- Eduden iOS App Developer Certification (Swift)
- Completion badge
- Showcase your apps on GitHub or App Store (if published)

Course Highlights

- 60 Days of Hands-On iOS Development Training
- Learn Swift from Scratch – Beginner-Friendly
- Best iOS App Development Course in Kolkata & India
- Build Real iPhone Apps with Swift & Xcode
- 5+ Projects + 1 Final Capstone App
- App Store Publishing Walkthrough
- Certificate from Eduden – India's Skill-Driven Institute
- Career Guidance, Resume Support & Demo Reels
- Attend Online or In-Person at Eduden, Kolkata
