2026 Cloud Computing Course With Eduden

Start Your Career in Cloud Computing

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Cloud Computing with AWS - Fundamentals (30 Days Hands-On)

Course Objective

To help learners understand what cloud computing is, how AWS delivers cloud services, and how to create and manage real cloud infrastructure — all from scratch.

You'll learn everything from theory to hands-on practice: launching servers, configuring storage, working with AWS services like EC2, S3, IAM, and more — all in a guided, no-fluff format.

Duration: 30 Days

Format: Hybrid (Online + Offline at Eduden, Kolkata)

Level: Beginner
