2026 Cyber Security Course With Eduden

Start Your Career in Cyber Security

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Ethical Hacking for Beginners – 45 Days Hands-On Course

Course Objective

Think hacking is just for movie villains and hoodie-wearing geniuses? Think again. With Eduden's beginner-friendly ethical hacking course in Kolkata, you'll learn how to legally break into systems, find security flaws, and help companies fix them — all while building a career in cybersecurity.

This is not a theory-dump. This is a fully hands-on ethical hacking course in West Bengal that teaches you how to think like a hacker, use real-world tools, and apply those skills to bug bounty programs, cybersecurity internships, or job-ready IT roles.
If you're searching for the best ethical hacking training in Kolkata, India — this is it. Practical. Powerful. And packed with projects.

Duration 45 Days	Lectures 32	Projects 5

Admission Test

No test, no gatekeeping. Just a passion for tech and a curious mind.

Join our free ethical hacking seminar and see what real hackers do (legally).

Course Overview

This 45-day ethical hacking course by Eduden is designed for total beginners who want to learn cybersecurity from scratch and enter one of the most in-demand industries in India. You'll master the core hacking phases from reconnaissance and vulnerability scanning to exploitation, report writing, and responsible disclosure.

All training is based on real-world attack simulations and live lab environments using tools like Kali Linux, Burp Suite, Wireshark, Nmap, and Metasploit — making this one of the most practical cybersecurity courses for beginners in India.

Whether your goal is to become a penetration tester, land your first cybersecurity job, or kick off your journey as a bug bounty hunter in India, this course will set you up with the exact skills needed.

Assignments

10+ assignments that simulate real attack scenarios perfect for building your portfolio and practicing concepts outside the classroom.

Quizzes

Knowledgecheck quizzes after each tool/module test your progress and reinforce everything you've learned.

Live Sessions

Weekly live sessions with industry professionals covering ethical hacking labs, career guidance, and Q&A with certified penetration testers.

Projects

You'll complete 5 industry-style projects based on real scenarios:

- Target Reconnaissance & Info Gathering
- Full Network Scan & Report
- Web Application Exploitation (DVWA + Juice Shop)
- Wireless Network Analysis & MITM Attack
- Final Assessment: End-to-End Pen Test Report

Course Curriculum & Tools

Top Tools Covered in This Ethical Hacking Course:

Curriculum Breakdown

✳ Introduction to Ethical Hacking

- Understanding Ethical Hacking in 2026
- Careers in Cybersecurity in India
- Tools & Lab Setup with Kali Linux
- Legal Guidelines, Certifications (CEH, OSCP)

✳ Networking Basics for Hackers

- TCP/IP, IP Addresses, Ports, Protocols
- Subnetting & Packet Structure
- OSI Model (in simple terms)
- CLI for Network Debugging

✳ Reconnaissance & Intelligence Gathering

- Passive Recon (Whois, Google Dorks, Shodan)
- Active Recon (Nmap, DNS Scans, Banner Grabbing)
- DNS Zone Transfers & Email Footprinting
- Hands-on: Real-time recon on test targets

✳ Vulnerability Analysis

- Identifying open ports and services
- Vulnerability scanners (Nmap Scripting, Nikto, Nessus)
- Interpreting vulnerability reports
- Hands-on: Full vulnerability scan on lab server

✳ Exploitation & Gaining Access

- Password cracking tools (Hydra, John the Ripper)
- Exploiting test web apps
- Remote Shell Access & Payload Delivery
- Introduction to Reverse Shells & Tunneling

⁕ Web Application Hacking

- OWASP Top 10 (XSS, SQLi, CSRF, IDOR, File Upload Bugs)
- Burp Suite tools: Repeater, Intruder, Decoder
- Real exploits on DVWA & OWASP Juice Shop
- Hands-on: Capture, edit and exploit HTTP requests

⁕ WiFi Hacking & Social Engineering

- WPA/WPA2 handshake capture
- Cracking encrypted Wi-Fi
- Intro to phishing, spoofing & physical recon
- Wireshark packet capture and protocol analysis

⁕ Reporting & Career Path

- Bug Bounty Basics & Responsible Disclosure
- Writing a professional penetration testing report
- Resume guidance for cybersecurity roles in India
- Final project presentation + evaluation

What You'll Get After Completing the Course

Certificate of Completion

After completing all tasks and submitting your final report, you'll receive a digital certificate signed by Eduden — recognized among top ethical hacking institutes in Kolkata.

Full Course Access for 45 Days

You'll get unlimited access to course material, lab simulations, toolkits, and recordings for the full duration. No hidden charges.

Career Launchpad

With job-ready skills, real project work, and tool-based experience, you'll be prepared for:

- Bug Bounty Basics & Responsible Disclosure
- Freelance pentesting & bug bounty programs
- Further certification like CEH, OSCP, or eJPT

Course Highlights

- Best Beginner Ethical Hacking Course in Kolkata
- 100% Hands-On Learning – No Boring Theory
- Work with Real Tools Used by Hackers & Analysts
- Build 5 Projects + Final Report for Portfolio
- Hybrid Format: Offline in Kolkata + Online Anywhere
- Certificate from Eduden – Leading Ethical Hacking Institute in India
- Career Guidance, Bug Bounty Tips & Resume Support
