Get hands-on,
Get hired.

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

DevOps Mastery - 90 Days Advanced Career Track

Course Objective

To train learners in practical, industry-standard DevOps practices, enabling them to confidently build pipelines, automate infrastructure, manage containers, and deploy applications to cloud environments like AWS, Azure, or GCP.

This course bridges the gap between learning tools and becoming a production-ready DevOps pro.

Duration: 90 Days

Format: Hybrid (Online & Offline at Eduden, Kolkata)

Level: Intermediate to Advanced

Outcome: Ready for roles like DevOps Engineer, Cloud DevOps Specialist, or SRE

Who Can Join

- Graduates of Eduden's "DevOps for Beginners" or equivalent
- IT professionals, developers, sysadmins looking to upskill
- Cloud practitioners moving into automation roles
- Anyone preparing for DevOps job roles, interviews or certifications

Course Breakdown

Module 1

DevOps Pipeline Architecture Deep Dive

- Real-world CI/CD workflow
- Dev vs Staging vs Production pipeline
- Environments, versioning, secrets handling
- YAML + shell integration best practices

Module 2

Docker & Containers – Pro Level

- Dockerfile optimization
- Docker Compose (multi-container apps)
- Volumes, bind mounts, networking
- Hands-on: Containerize a full-stack app with PostgreSQL

Module 3

Kubernetes (K8s) for Production

- K8s architecture (pods, replicasets, deployments)
- Services: ClusterIP, NodePort, Ingress
- Helm charts (intro), Secrets, ConfigMaps
- Hands-on: Deploy microservices on K8s with Ingress routing

Module 4

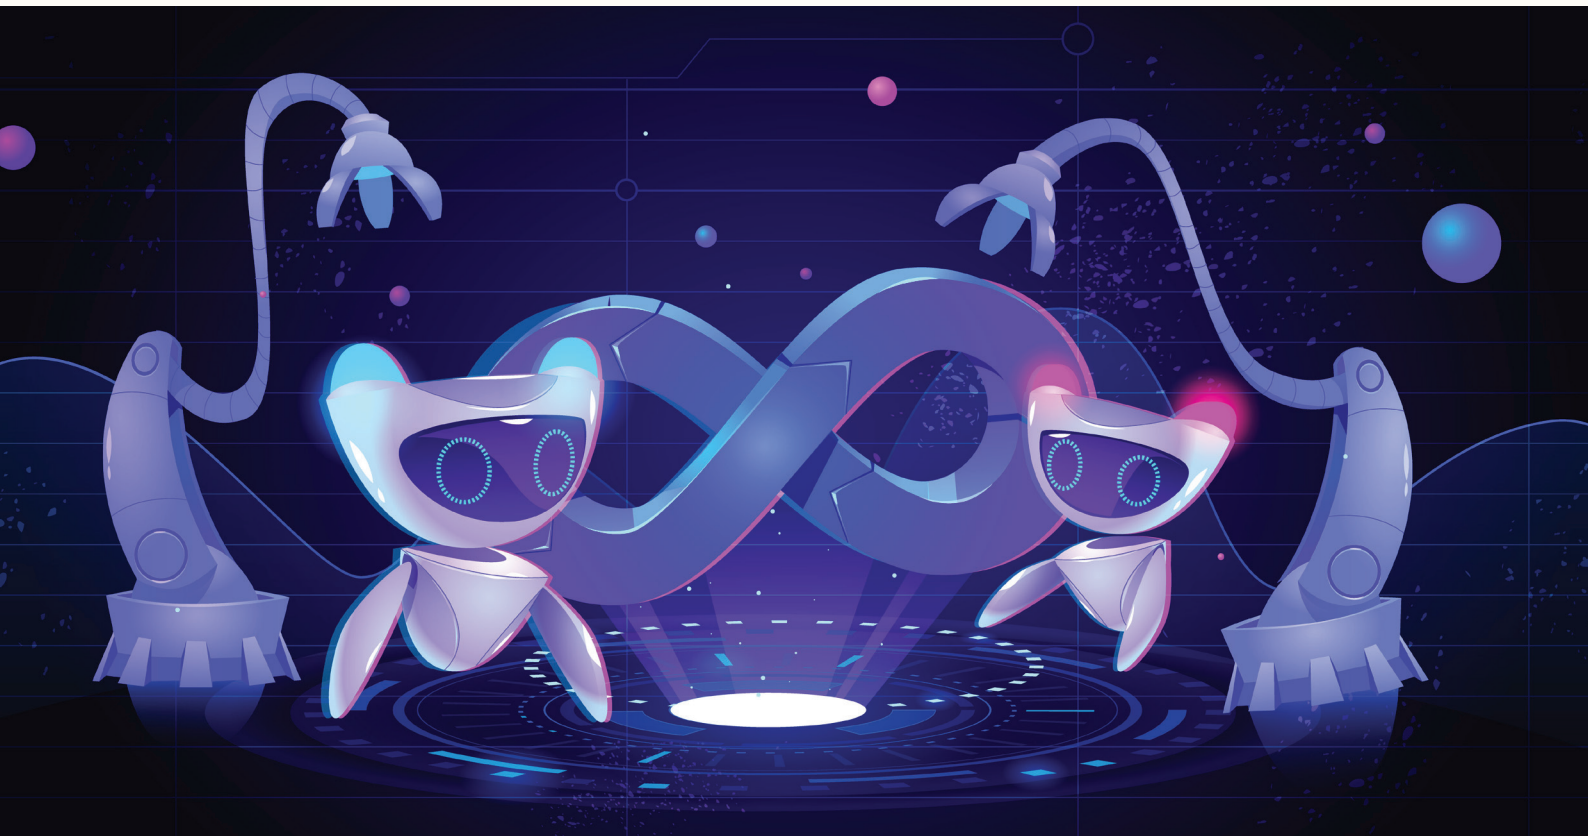

Jenkins + GitHub Actions CI/CD Automation

- Jenkins installation & pipeline-as-code
- GitHub Actions with matrix builds
- Deployment triggers, rollback strategies
- Hands-on: Setup pipeline with test + build + deploy phases

Module 5

Infrastructure as Code with Terraform

- Providers, resources, variables, modules
- AWS infrastructure provisioning
- Integrating Terraform into CI/CD workflows
- Hands-on: Provision EC2 + VPC + RDS with Terraform

Module 6

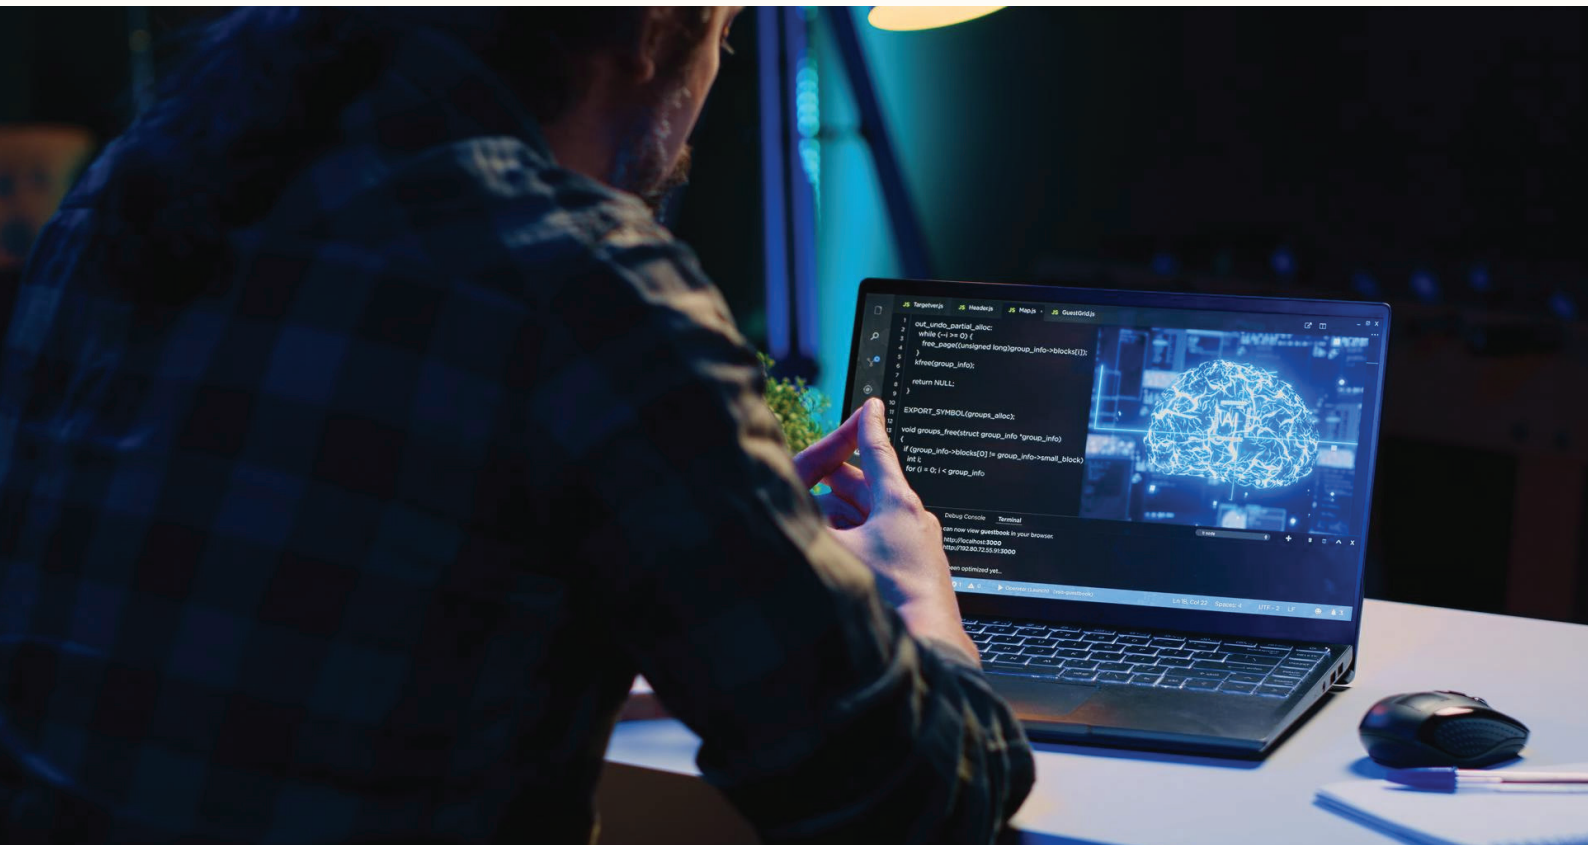

Configuration Management with Ansible

- Inventory files, ad-hoc commands
- Playbooks, roles, modules
- App deployment + system hardening
- Hands-on: Write Ansible playbooks to configure remote servers

Module 7

Cloud Platforms (AWS Focus + Azure Intro)

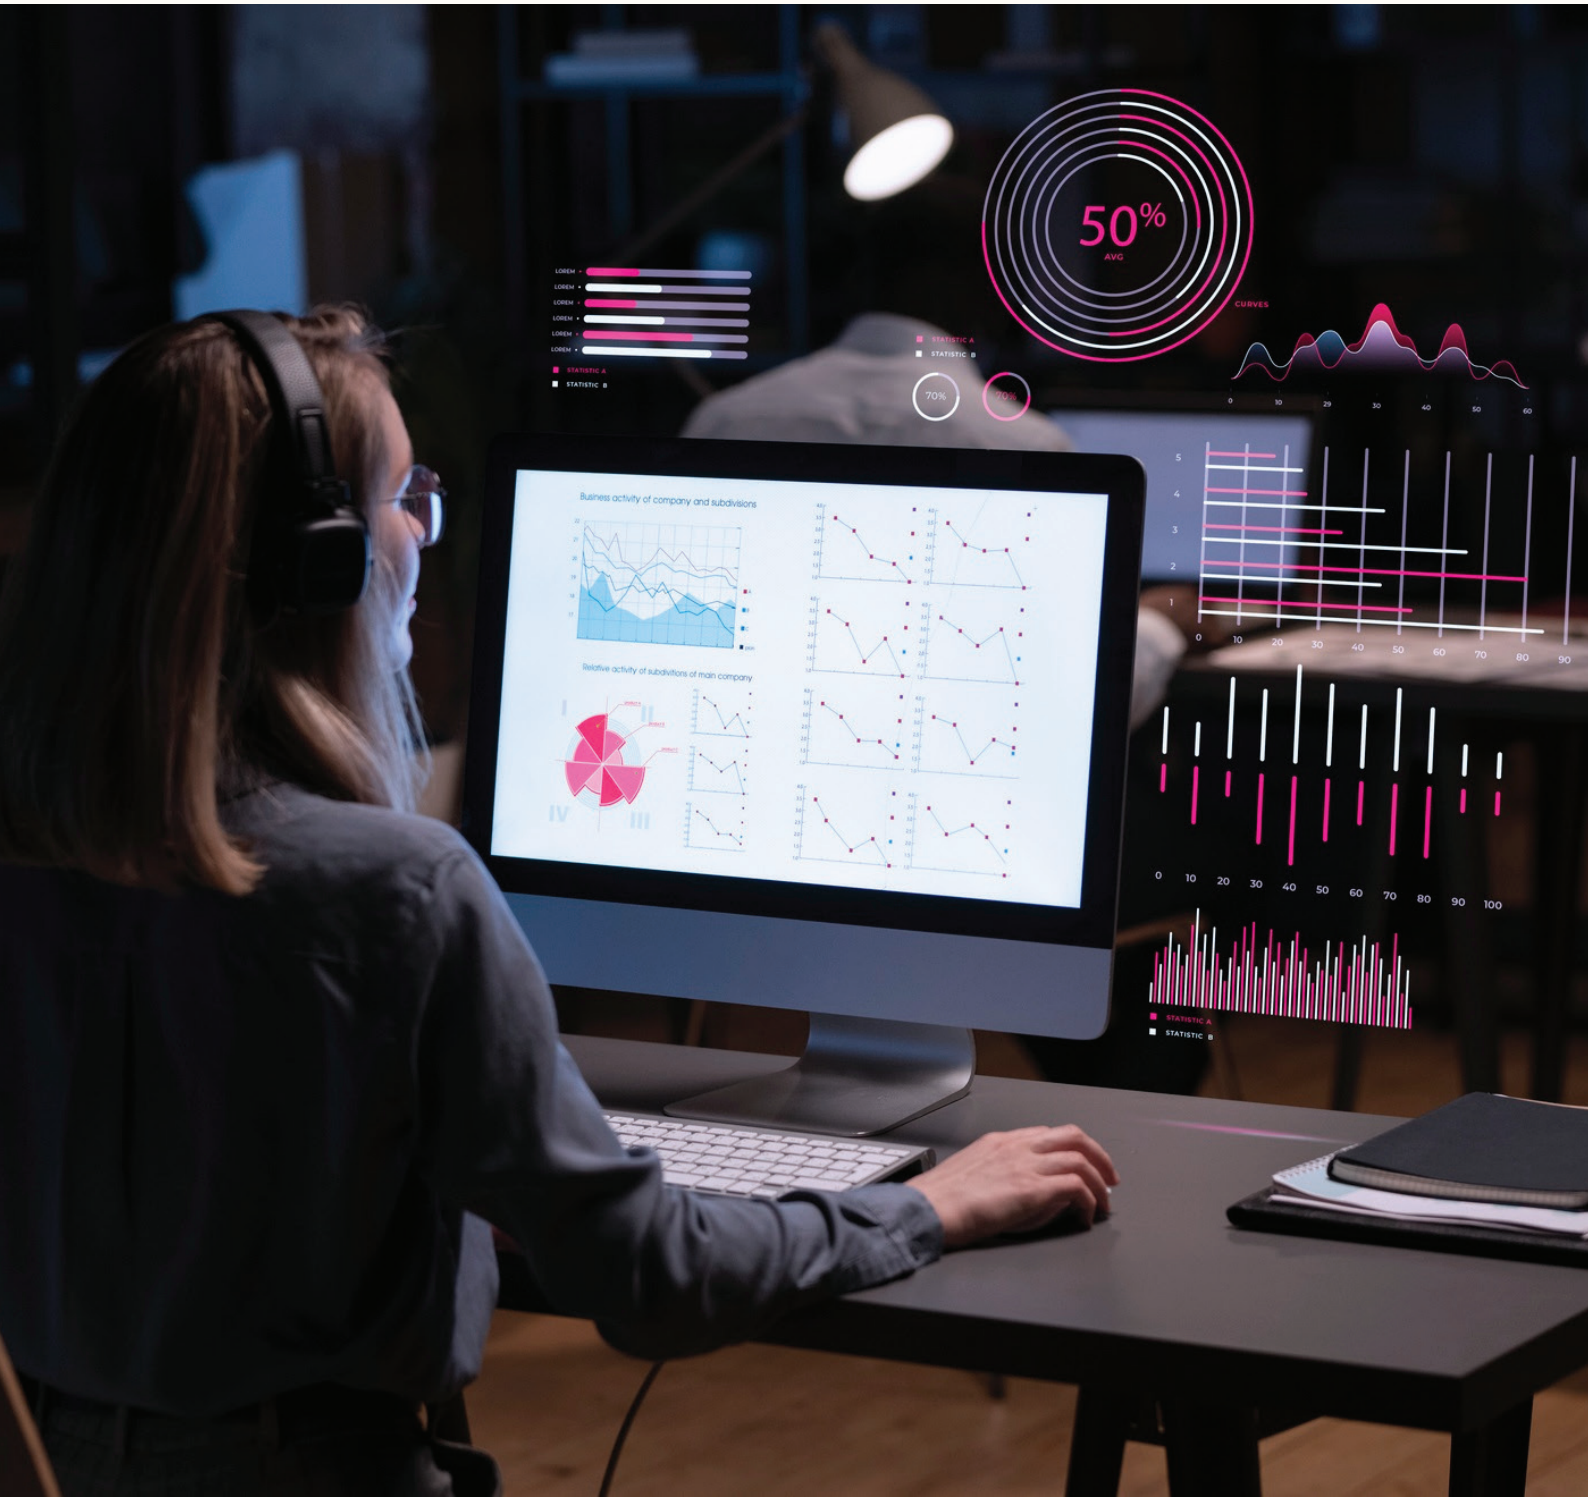

- EC2, S3, IAM, Load Balancer, RDS
- Auto Scaling, Route53, CloudWatch
- Azure DevOps CLI (overview), pipelines
- Hands-on: Deploy a web app on EC2 with CI/CD

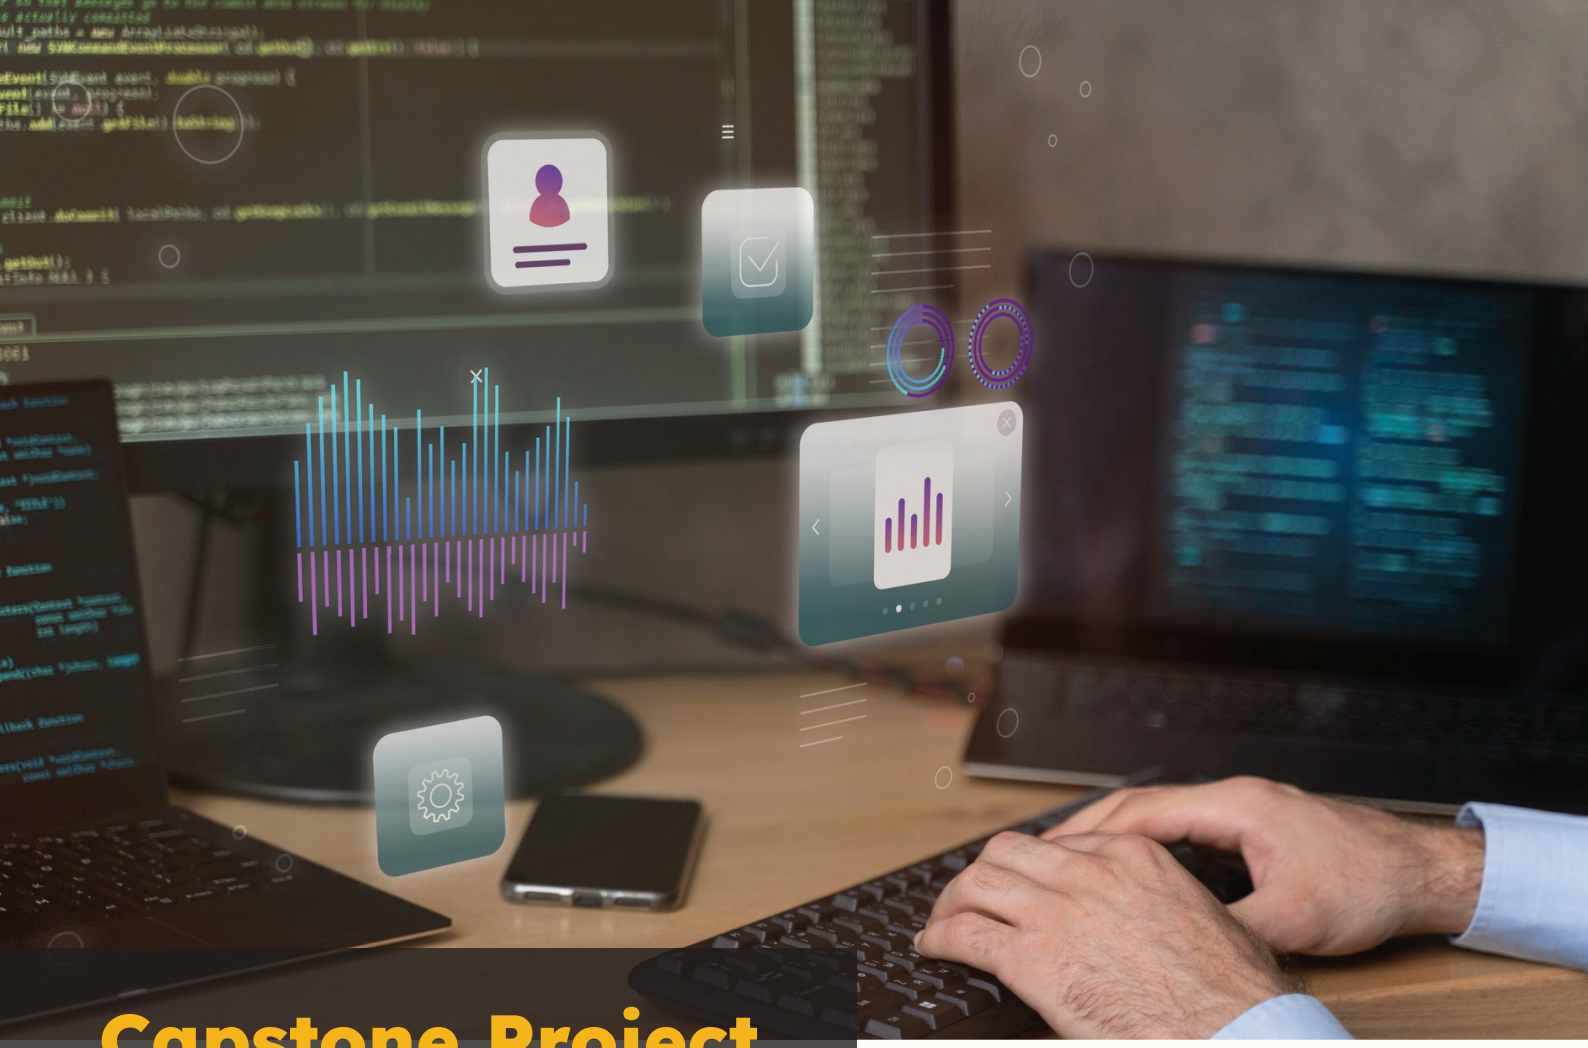

Module 8

Monitoring, Logging & Security

- Prometheus + Grafana setup
- Log aggregation with ELK Stack (intro)
- Container/image scanning (Trivy, Aqua)
- Hands-on: Monitor K8s cluster + generate alerts

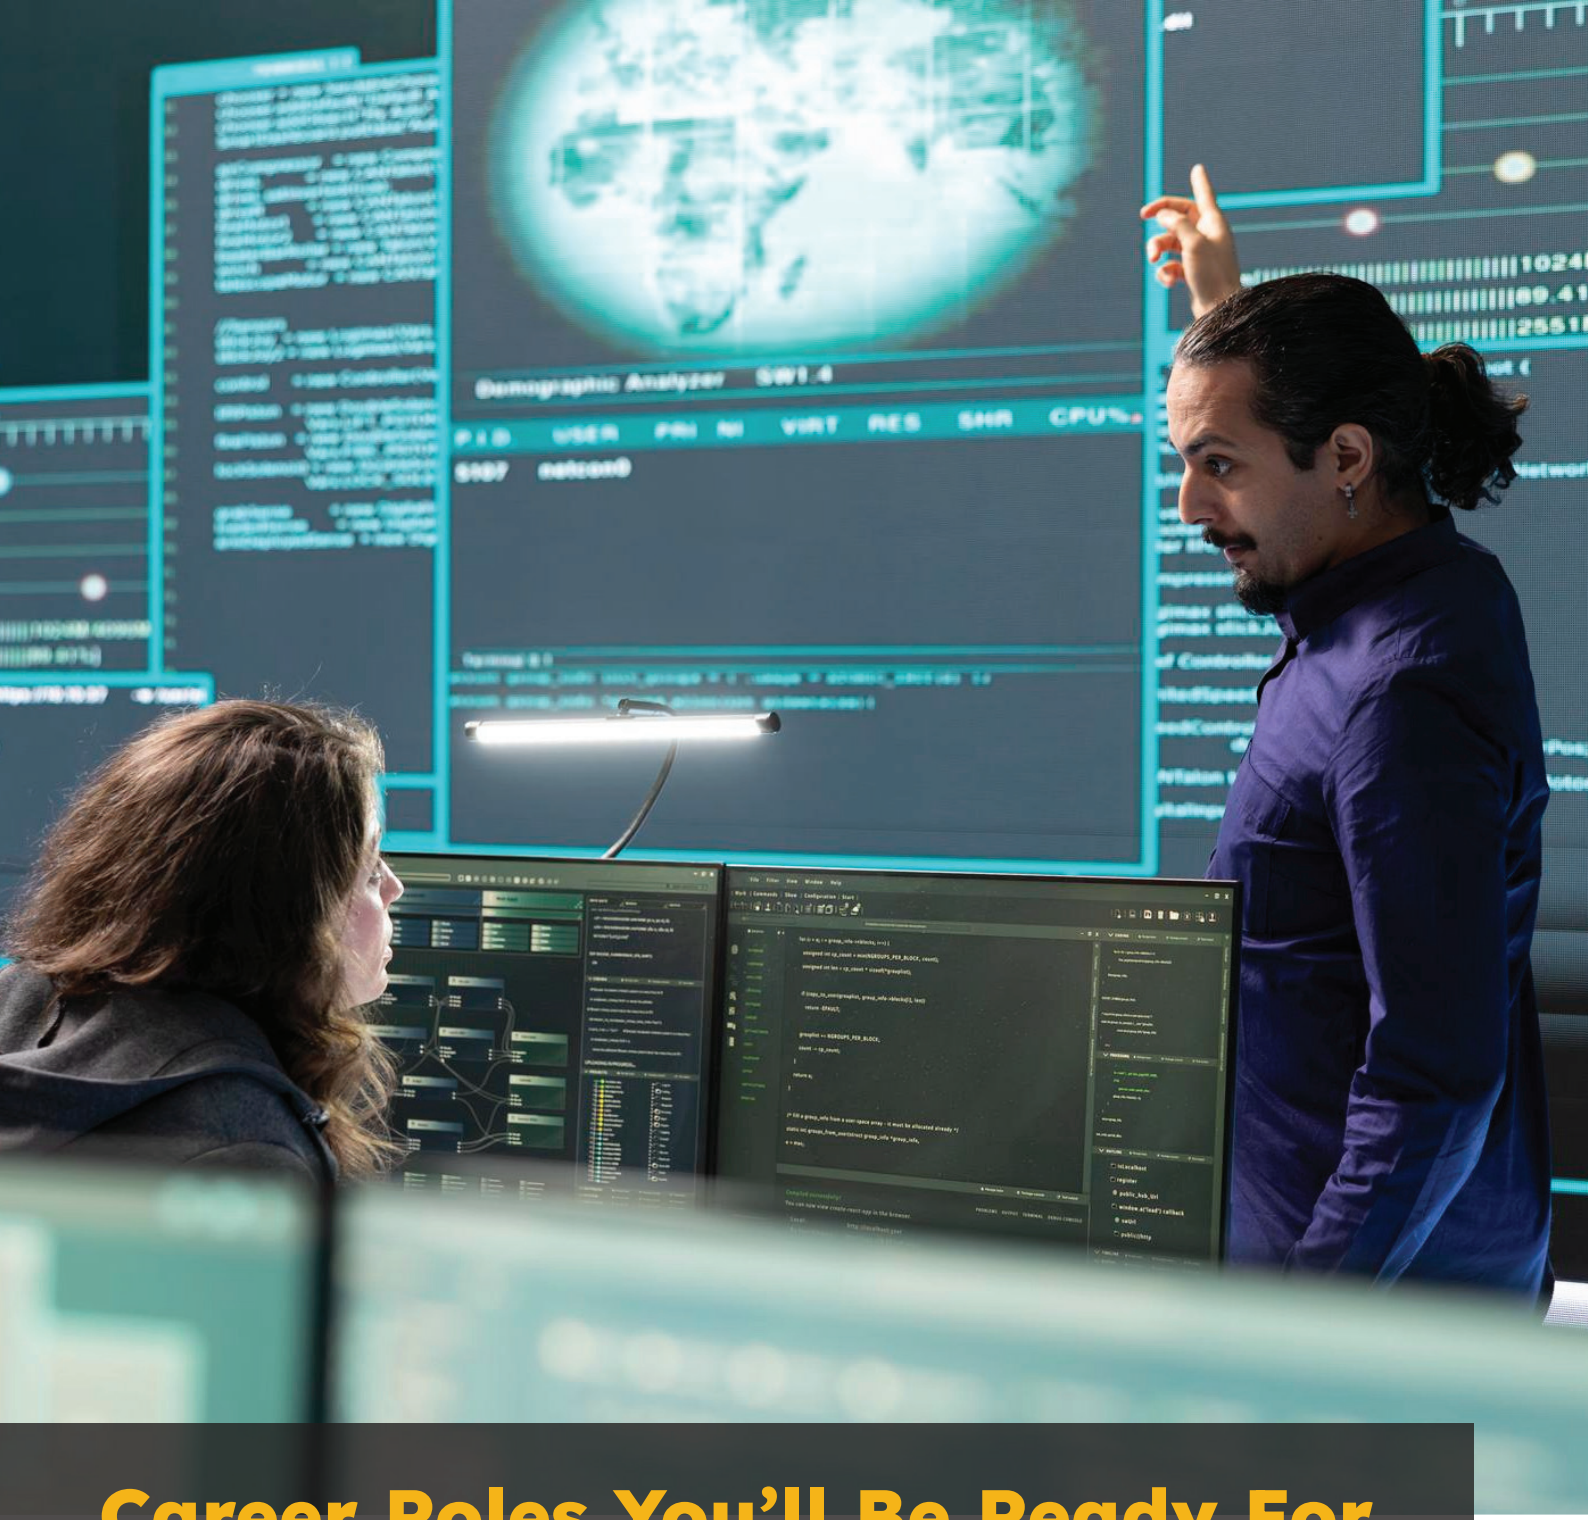

Capstone Project

- Build a GitHub → Jenkins → Docker → K8s CI/CD pipeline
- Infrastructure on AWS via Terraform
- Ansible-based configuration
- Full documentation + GitHub-hosted project

Certification

- Eduden Certificate: DevOps Mastery – Advanced DevOps Engineer Training
- Capstone + lab performance-based certification
- Roadmap to CKA, AWS DevOps Pro, Terraform Associate

Career Roles You'll Be Ready For

- DevOps Engineer
- Site Reliability Engineer (SRE)
- Platform Engineer
- Cloud Automation Specialist
- Infrastructure-as-Code Expert
- DevOps Consultant

Course Highlights

- 90 Days of Real, Hands-On DevOps Training
- Best Advanced DevOps Course in India with Projects
- Docker, Kubernetes, Terraform, Jenkins, Ansible – All Covered
- GitHub Portfolio + Resume Prep
- Hybrid Mode – Online or In-Person at Eduden, Kolkata
- Taught by Cloud & DevOps Engineers
- Capstone Project + Industry Scenario Labs
- Certification Support (AWS, CKA, Terraform)
