About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Digital Marketing Basics – 30 Days Hands-On Training

Course Objective

To help you understand and apply the fundamentals of digital marketing, including how to rank websites, run ads, grow on social media, and analyze what's working — so you can market any brand, product, or idea in today's digital world.
This course is ideal for students, freelancers, startup founders, and job seekers who want to master the core skills of online marketing — fast and practically.
