2026

Graphic Design Course

Start your journey with Eduden

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Graphic Designing and Visual Communication

Course Objective

Ever looked at a cool poster, a slick logo, or an Instagram ad and thought, “I wish I could make that”? Well, now you can — and you’ll get paid for it too. This course is your launch-pad into the design world, where we’ll teach you how to create scroll-stopping visuals, smart brand identities, and designs that speak louder than words.

From the basics of color psychology to mastering Adobe Illustrator and diving into Photo-shop essentials, we’ve packed this course with everything you need to become a designer people want to hire. Whether you want to freelance, build your own brand, or get into creative roles — we’ll show you how to design with purpose and confidence.

Duration 45 Days	Lectures 30	Projects 5

Course Overview

This is a fully practical, tool-driven course designed to take beginners into the world of graphic design and digital branding. Participants will learn how to use Adobe Illustrator like a pro, with a solid understanding of design principles, typography, composition, and color theory. Basic image editing with Photoshop is also covered to help students clean up, enhance, and prepare visual assets for real-world projects.

From creating logos and social media posts to working with clients and understanding design briefs, every lesson is hands-on. You won't just learn how to design — you'll learn why good design works and how to use it to tell compelling visual stories.

Assignments

12+ practical exercises uploaded to your Slack group — perfect for building your portfolio.

Quizzes

Quick quizzes after each topic to test your understanding (and give you bragging rights).

Live Sessions

Weekly live classes with interactive project reviews, tool deep-dives, and 1:1 mentor time.

Projects

You'll work on 5 core projects that build your portfolio and prove your skills:

- Logo Design Challenge
- Social Media Campaign (for a fake brand)
- Poster or Flyer Design
- Basic Brand Kit Creation
- Final Project: Visual Identity for a Concept Brand

Course Curriculum & Tools

Top Tools Covered in This Graphic Design Course:

Curriculum Breakdown
