Get hands-on,
Get hired.

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Networking Advanced – Routing Mastery (CCNP + CCIE Syllabus Based)

Course Objective

To give learners the practical and theoretical knowledge required to configure, troubleshoot, and optimize enterprise switching infrastructure — from access to distribution layers, covering all critical Layer 2 and Layer 3 switching topics aligned with Cisco CCNP & CCIE EI certifications.

You'll build skills that directly map to real-world job roles and Cisco's most elite certifications.

DURATION		LEVEL
90 Days	Hybrid (Online & Offline at Eduden, Kolkata)	Intermediate to Advanced (CCNA Recommended)

Who Can Join

- CCNA-certified professionals or those with solid networking fundamentals
- Network engineers or IT infrastructure pros looking to level up
- Candidates preparing for CCNP ENCOR or CCIE Enterprise Infrastructure
- Professionals managing corporate or campus networks

Course Modules Overview

Module 1

Switching Fundamentals Review

- Layer 2 vs Layer 3 switching
- CAM table, frame forwarding
- Duplex, collision, broadcast domains
- Hands-on: Basic switch configuration lab

Module 2

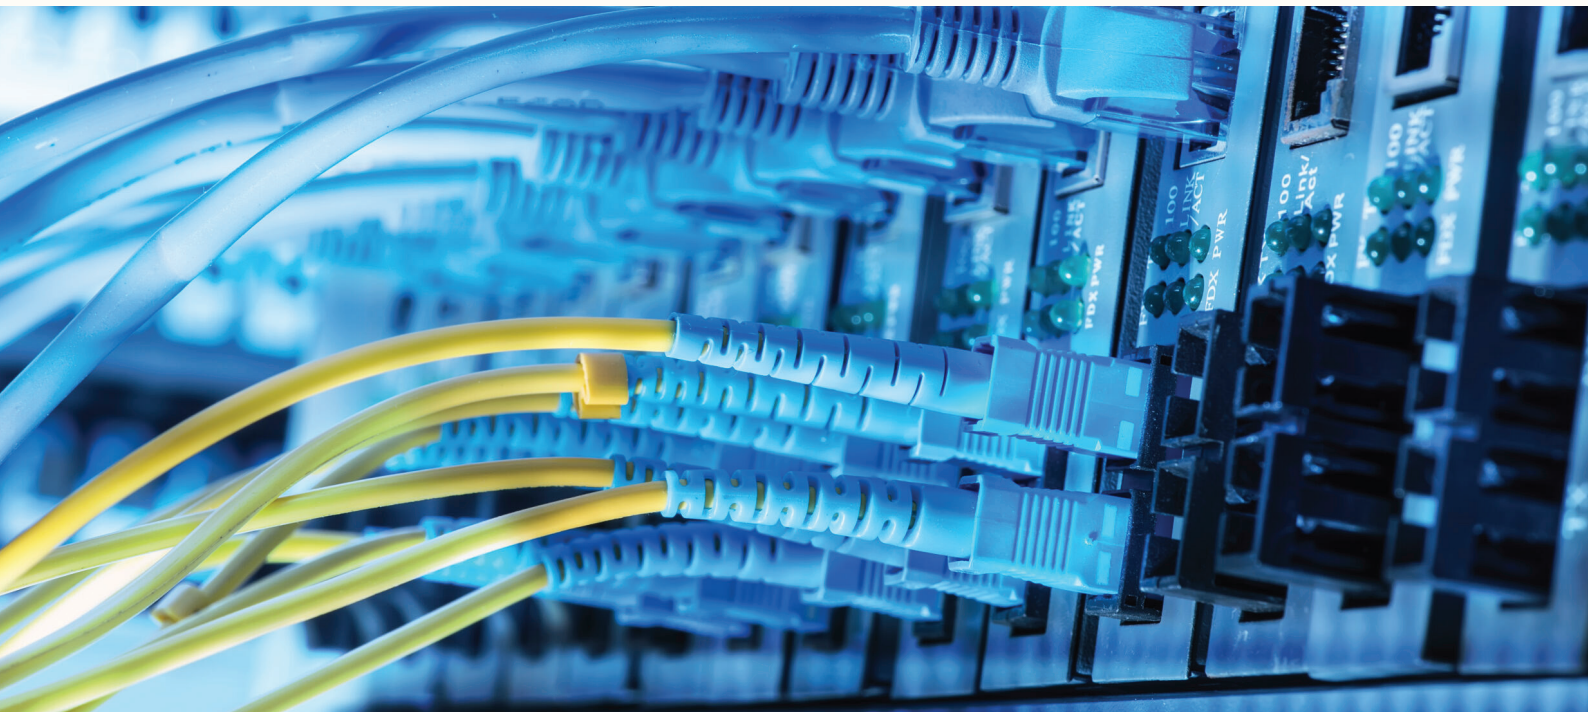

VLANs & Trunking

- VLAN creation & management
- 802.1Q Trunking
- DTP negotiation
- Native VLAN, VLAN hopping security
- Hands-on: Multi-switch VLAN & trunk lab

Module 3

Inter-VLAN Routing & SVIs

- Switch Virtual Interfaces (SVIs)
- Layer 3 switch configurations
- Router-on-a-stick vs L3 switch
- Hands-on: Configure routing between VLANs

Module 4

Spanning Tree Protocol (STP)

- STP, RSTP, MSTP deep dive
- Bridge ID, Root Bridge Election
- PortFast, BPDU Guard, Loop Guard
- Troubleshooting STP issues
- Hands-on: STP topology & convergence test lab

Module 5

EtherChannel (L2 & L3)

- LACP vs PAgP
- Static vs dynamic EtherChannel
- Load balancing options
- Redundancy & loop avoidance
- Hands-on: Configure L2 & L3 EtherChannels with failover

Module 6

Advanced Switching Security

- DHCP Snooping
- Dynamic ARP Inspection (DAI)
- Port Security, Storm Control
- MAC address filtering & ACLs
- Hands-on: Harden a switch network against common attack

Module 7

High Availability & Campus Design

- Redundancy models (Core, Distribution, Access)
- VTPv3, VLAN database management
- Hierarchical campus design
- Network scalability & convergence planning
- Hands-on: Design and document a scalable Layer 2 topology

Projects You'll Build

- VLAN + Trunk + STP Configuration
- Layer 3 Switch Inter-VLAN Routing
- EtherChannel Redundancy Network
- STP Topology with Loop Testing
- Final Project: Campus Switching Network Design + Lab Simulation

Career & Certification Support

- Job roles:
  - Network Engineer L2/L3
  - Switching Support Specialist
  - Infrastructure Analyst
- Mock CCNP switching-focused interviews
- CCNP ENCOR/CCIE preparation (switching section)
- Design documentation templates for project use

Certification

- Eduden Certificate in Advanced Switching (CCNP/CCIE-Aligned)
- GitHub/Lab Documentation Project Submission
- Optional: Recommendation letter based on project performance

Course Highlights

- 90 Days of Intensive, Hands-On Switching Training
- Based on CCNP ENCOR + CCIE Enterprise Infrastructure
- Best Cisco Switching Course in Kolkata & India
- Covers VLANs, STP, EtherChannel, HA, and L3 Switching
- Certificate from Eduden – Top Networking Institute in India
- Build, Document, and Simulate Real Campus Networks
- Hybrid Format – Online & Offline Access with Lab Simulation
- Perfect for Jobs, Certifications, and Real Infrastructure Roles
