Get hands-on,
Get hired.

# About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

# Diploma in Full Stack Programming – 9 Months Career Track

## Course Objective

To transform complete beginners into independent full-stack web developers, capable of building, scaling, deploying, and maintaining modern web applications — using the exact tech stack used at companies like Netflix, Reddit, and Notion.

This isn't a crash course. It's a deep, structured, job-oriented diploma with live mentorship, weekly labs, 10+ major projects, mock interviews, and portfolio support.

**Frontend:** React + Next.js

**Backend:** Django (Python)

**Database:** PostgreSQL + MongoDB

**Duration:** 9 Months

**Format:** Hybrid (Online & Offline at Eduden, Kolkata)

**Level:** Beginner to Advanced (Career-Oriented)

## Who Can Join

- Students (12th pass or graduates from any stream)
- Working professionals looking to switch careers
- Freelancers and entrepreneurs wanting to build real tech products
- Anyone passionate about building web apps, even without coding background

# Course Curriculum

The course is broken into 6 core modules, covered over 9 months with labs, assessments, and projects after each.

## Module 1

### Programming & Web Fundamentals

- HTML5, CSS3, Responsive Design
- JavaScript (ES6+), DOM, Loops, Functions, Arrays
- Git, GitHub, CLI, Hosting Static Sites
- Mini Project: Personal Portfolio Website

## Module 2

# React.js – Frontend Development

- React Basics: Components, Props, State
- React Hooks: useEffect, useState, useContext
- React Router, Forms, Validation
- Working with APIs
- Project: Responsive Blog UI + Dynamic Routing + API Integration

## Module 3

# Next.js – Server-Side & SEO-Powered Frontend

- File-Based Routing
- Static Generation vs Server-Side Rendering
- getStaticProps / getServerSideProps
- Image Optimization, Head, Metadata
- Authentication Integration (JWT / OAuth / NextAuth)
- Project: Multi-Page E-Commerce Frontend + SEO Optimization

## Module 4

### Django – Backend API & Business Logic

- Django Project/App Structure
- Models, Views, Templates, URL Routing
- Django Admin, Forms, User Auth, Sessions
- Django REST Framework (DRF)
- Token Auth, API Filtering, Pagination
- Project: Full API with Admin Panel, CRUD, Auth, Protected Routes

# Blue Team Track (Defensive Security)

## Module 5

### Databases – PostgreSQL + MongoDB

- DBMS Foundations
- Designing Schemas for Scale
- PostgreSQL: Joins, Subqueries, Constraints, Indexing
- MongoDB: Documents, Aggregation, NoSQL Design Patterns
- Hands-on: Design a hybrid data architecture
- Project: Data Layer for Scalable App (SQL + NoSQL)

## Module 6

# Full Stack Integration & Deployment

- Connecting Django REST API to Next.js Frontend
- API consumption in React with Axios / Fetch
- Deployment: Vercel (Next.js), Railway / Heroku (Django), ElephantSQL, Mongo Atlas
- CI/CD Basics, GitHub Actions (intro)
- Final Capstone Project: Full Web App with Auth, CMS, Payment & Admin Panel

## Career Support + Portfolio

- Resume & LinkedIn Optimization
- Mock Interviews & Coding Assessments
- GitHub Portfolio Walkthrough & Review
- Capstone Presentation + Code Defense

## Projects You'll Build

- Personal Portfolio Website
- Blog CMS (React + Django)
- E-Commerce Storefront with Admin Panel
- Job Board or Booking System
- Real-Time Dashboard with Charts
- Final Full Stack Capstone Project (You choose the app idea!)

# Certification

You will receive:

- Eduden Diploma in Full Stack Development
- Separate skill certificates for: React, Next.js, Django, SQL, MongoDB
- GitHub portfolio + final project Git showcase

# Course Highlights

- 90 Days of Real Red Team & Blue Team Training
- Full Stack Developer Course with Django, React, Next.js, MongoDB & PostgreSQL
- Best Full Stack Diploma in India with Live Projects
- Designed for Jobs, Internships & Freelancing
- Certificate from Eduden – India's Top Skill-First Tech Institute
- Hybrid Format – Attend Online or In-Person at Eduden, Kolkata
- 10+ Projects + Resume & GitHub Support
- Mock Interviews, Job Referrals & Mentorship
