Get hired.

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

JavaScript, React & Next.js Mastery – 90 Days Hands-On Training

Build Real Web Apps with Modern JavaScript & the React Ecosystem

This name is catchy, searchable, and perfect for drawing attention from both aspiring frontend developers and full-stack learners. It's packed with relevant keywords like:

- JavaScript course with React and Next.js in India
- best React training in Kolkata with hands-on projects
- Next.js course for beginners in West Bengal
- learn React and JavaScript for frontend development
- React developer course with projects India
- job-ready React and Next.js certification Kolkata
- Eduden JavaScript full web app development course

Course Objective

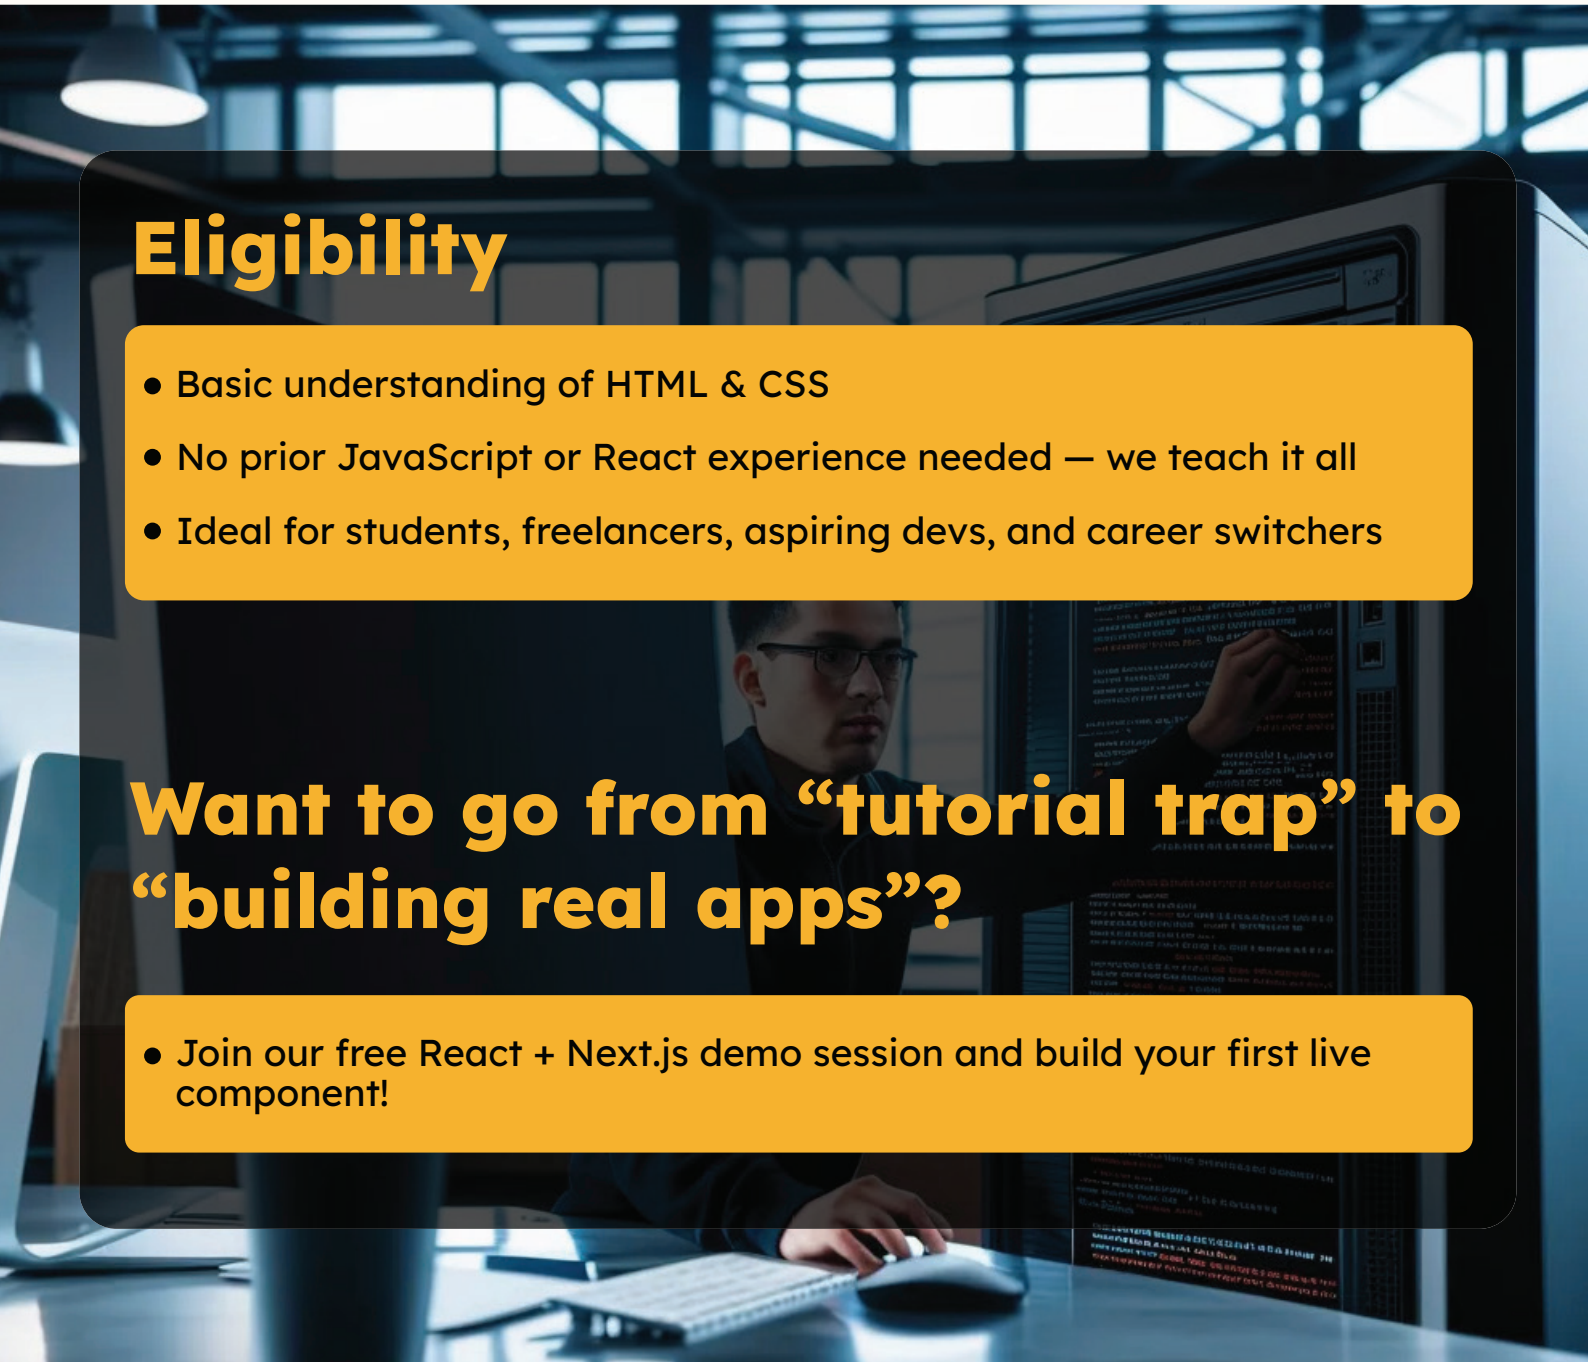

Want to build apps like Instagram, YouTube, or even your own portfolio site?
This course teaches you exactly how — from scratch.

Welcome to Eduden's JavaScript, React & Next.js Mastery, a 90-day immersive hands-on program built for aspiring web developers, tech entrepreneurs, and designers who want to bring ideas to life with real code.

Start by mastering modern JavaScript, then dive into React (the world's most popular front-tend library), and finally build production-ready, SEO-optimized apps with Next.js — used by companies like Netflix, Twitch, and TikTok.

If you're looking for the best React and Next.js course in India, this is it.

Duration 90 Days	Lectures 55+	Projects 6

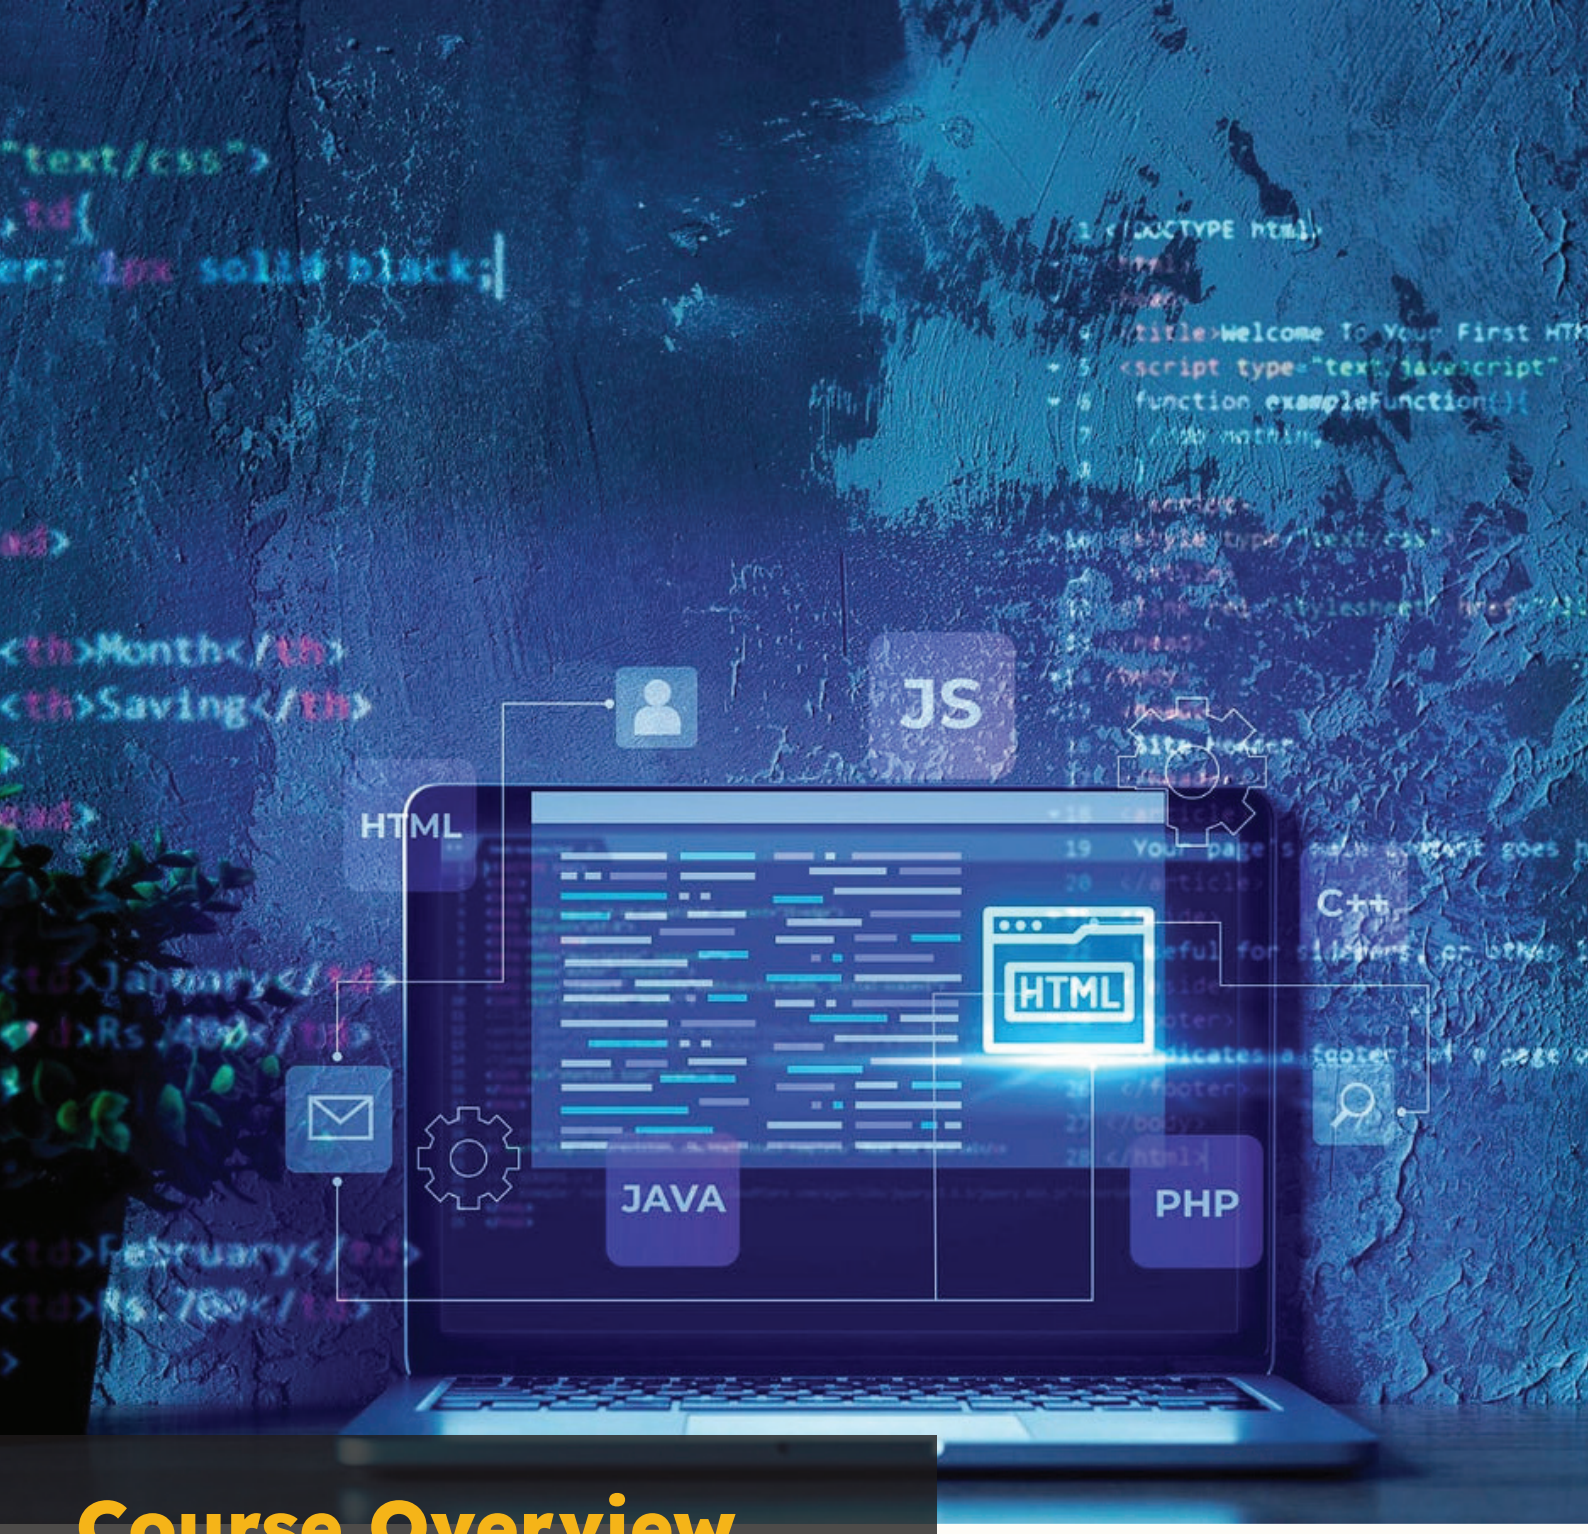

Eligibility

- Basic understanding of HTML & CSS
- No prior JavaScript or React experience needed — we teach it all
- Ideal for students, freelancers, aspiring devs, and career switchers

Want to go from "tutorial trap" to "building real apps"?

- Join our free React + Next.js demo session and build your first live component!

Course Overview

This course is your complete roadmap to becoming a modern frontend developer using JavaScript, React & Next.js. You'll learn core logic, UI frameworks, state management, APIs, routing, authentication, deployment, and more — all by building real apps.

You'll walk out with:

- A live developer portfolio
- 6+ full-fledged apps
- Skills to apply for frontend dev, React developer, or full-stack JS roles

This is one of the most complete and hands-on React + Next.js courses in Kolkata, West Bengal, and India right now.

Assignments

Component challenges, logic puzzles, form validation tasks, routing logic, and state exercises.

Quizzes

Module quizzes for JavaScript concepts, React component hierarchy, state management, and Next.js routing.

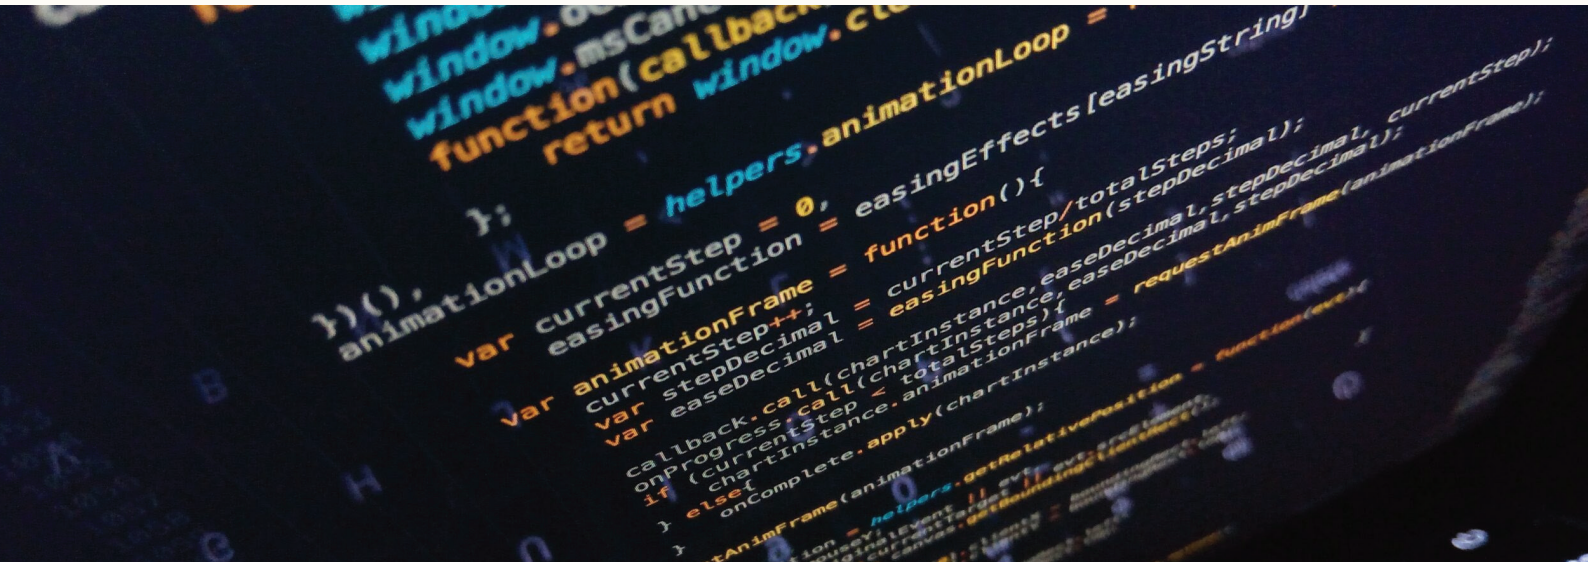

Live Sessions

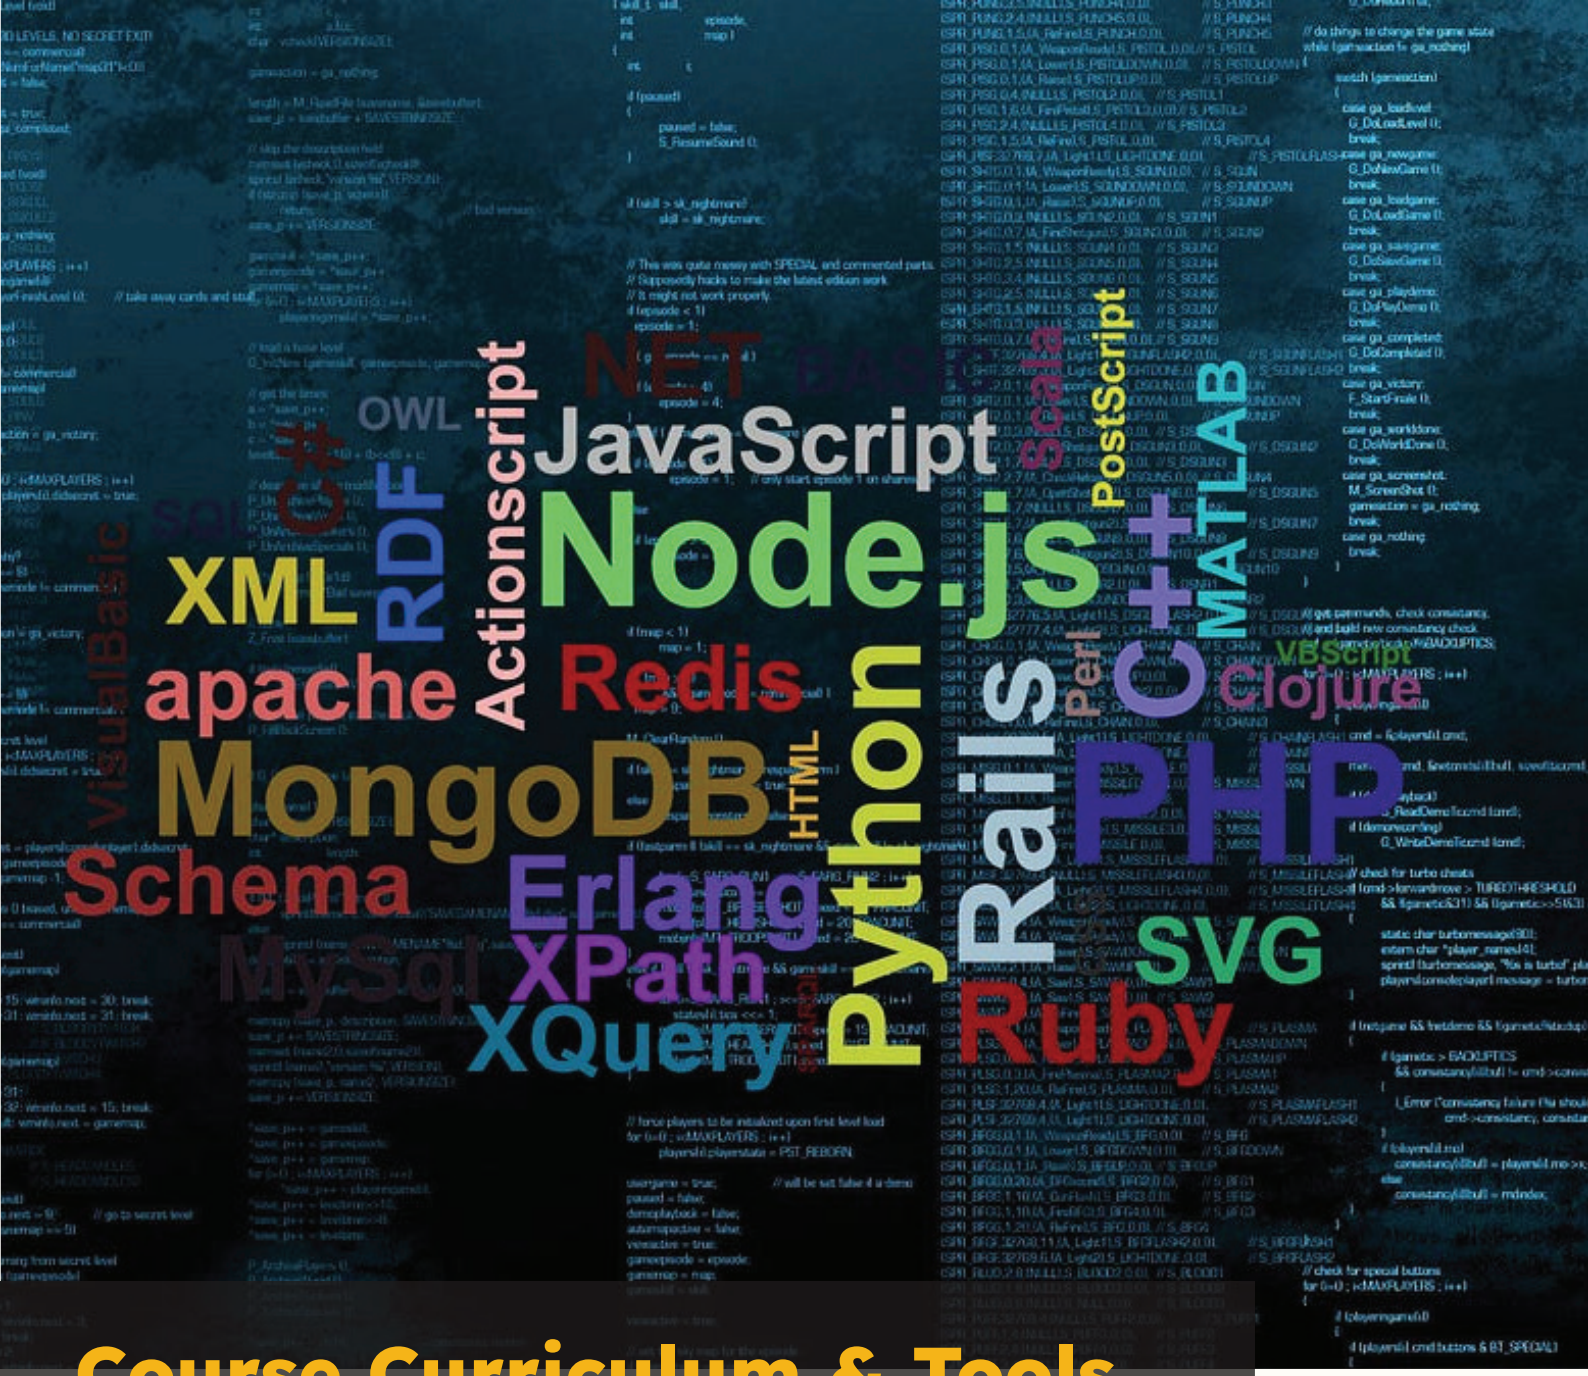

Weekly live coding sessions, project deep-dives, and performance optimization tips from working developers.

Projects

You'll build 6 real apps including:

- To-Do App (JavaScript)
- Recipe Finder with API Calls (React)
- Portfolio Site with Dark Mode Toggle (React + Hooks)
- Blog Website with CMS Integration (Next.js + Markdown)
- E-Commerce Store with Cart & Checkout (Next.js + State Management)
- Final Project: Full Portfolio App with Authentication, SEO, Routing, and Deployment

Course Curriculum & Tools

Languages, Libraries & Tools You'll Learn:

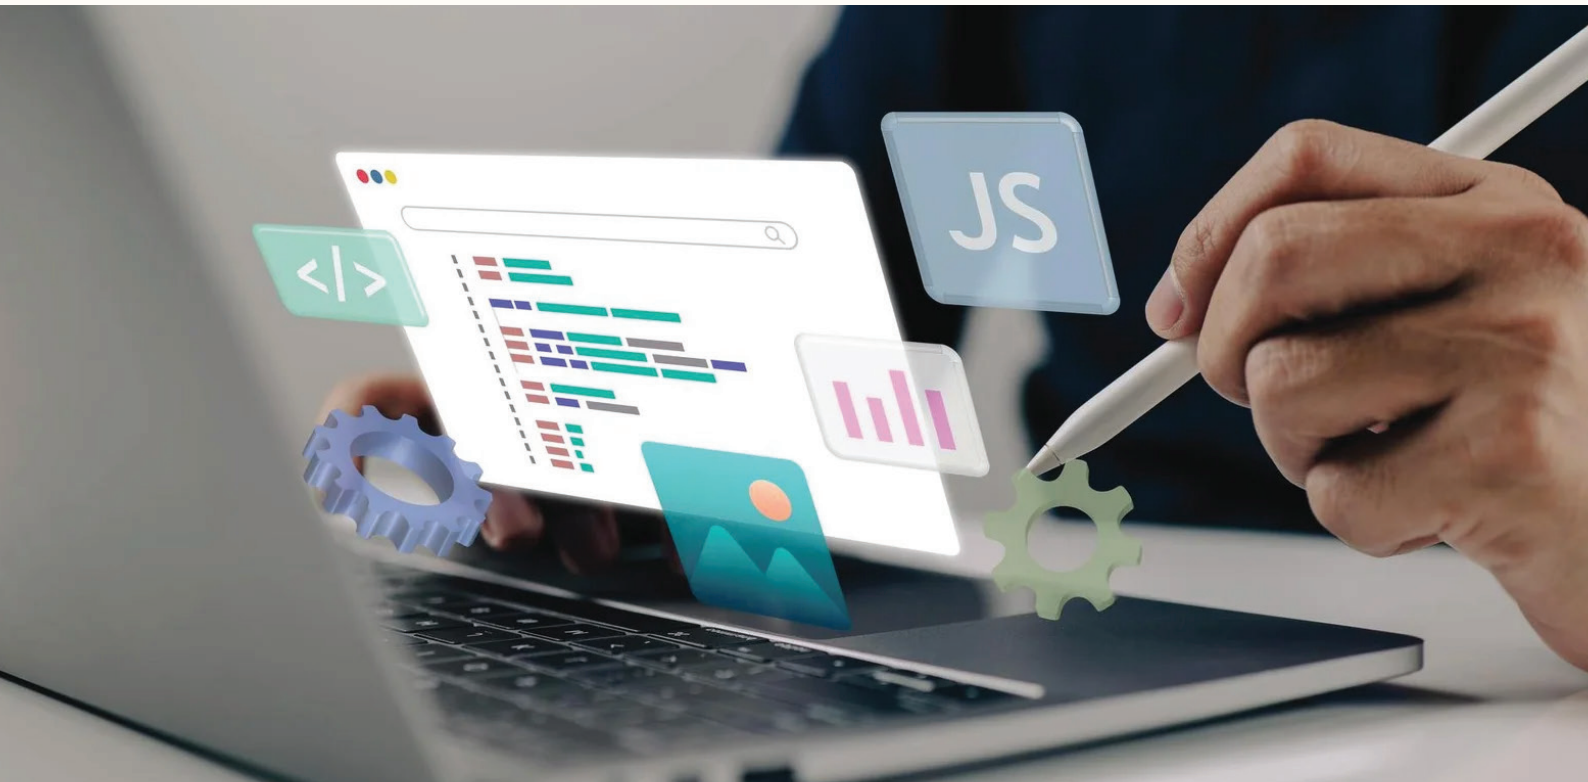

Curriculum Breakdown

✳ Modern JavaScript

- Variables, functions, arrays, objects
- Loops, conditionals, ES6 syntax
- Arrow functions, destructuring, promises
- DOM manipulation basics
- Hands-on: Build a basic interactive webpage

✳ React Fundamentals

- Components, props, and state
- Handling events, controlled inputs
- useEffect, useState, useRef
- Conditional rendering & forms
- Hands-on: Build a reusable card component system

✳ React Advanced

- Routing with React Router
- Lifting state & Context API
- Working with APIs (fetch, Axios)
- Real-time search, pagination, and filters
- Hands-on: Build a blog-style UI that consumes an API

✳ Next.js Foundations

- Pages, dynamic routing, Link component
- getStaticProps vs getServerSideProps
- Building static & server-rendered sites
- SEO optimization and meta management
- Hands-on: Convert a React app into a fully SEO-ready Next.js site

✳ State Management & Auth

- Global state with Context API
- Authentication with Firebase/NextAuth
- Protected routes
- Handling tokens and sessions
- Hands-on: Create an account-based dashboard

✳ Styling, Deployment & Portfolio

- Tailwind CSS (Basics) or custom CSS modules
- Deploying on Vercel / Netlify
- GitHub + Version Control
- Final Project Walkthrough + Portfolio Setup

What You'll Get After Completing the Course

Certificate of Completion

Get your JavaScript, React & Next.js Certification from Eduden, recognized by recruiters and ideal for your tech portfolio.

Full 90-Day Access

All videos, projects, code repos, recorded sessions, and deployment tools included. Reuse, remix, and grow your codebase.

Ready for Real Dev Roles

This course preps you for:

- Frontend Developer Roles
- Junior React Developer
- Next.js Developer
- Freelance Web Dev with Modern Stack
- Full Stack JavaScript Developer (with further backend learning)

Course Highlights

- 90 Days of Full JavaScript + React + Next.js Training
- Build Real Projects — Not Just Hello Worlds
- Best React + Next.js Developer Course in India
- Perfect for Beginners, Freelancers, and Aspiring Full-Stack Devs
- Taught by Real Developers with Production Experience
- Certificate from Eduden – Kolkata's Top Dev Training School
- Weekly Live Mentorship & Code Reviews
- Hybrid Format – Learn Online or Offline in West Bengal
- Resume & GitHub Portfolio Support
- Built for Jobs, Internships, Freelancing, and Startup Builders
