Get hired.

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

MERN Stack Developer – 6 Months Hands-On Training

Course Objective

To transform you into a job-ready MERN stack developer who can build dynamic full stack applications using JavaScript on both frontend and backend, manage databases, implement APIs, handle authentication, and deploy projects like a pro

Duration: 6 Months

Format: Hybrid (Online & Offline at Eduden, Kolkata)

Level: Beginner to Advanced

Who Can Join

- Students (12th pass or graduates)
- Working professionals looking to switch to tech
- Frontend developers looking to go full stack
- Entrepreneurs & freelancers who want to build & launch real apps

Course Curriculum

Module 1
