Get hired.

About Eduden

Welcome to Eduden — where we've thrown boring education out the window and replaced it with hands-on learning, real-world skills, and a vibe that actually makes sense in 2026.

We're not your grandma's school (unless she's into coding, design, and memes). At Eduden, we're flipping the traditional classroom upside down. No whiteboards full of buzzwords. No endless theory. Just solid skills, taught by international trainers, that get you job-ready fast.

Whether you want to be a freelance graphic designer, a Python wizard, a networking pro, or a UI/UX boss, we've got your back. Our hybrid courses (online + offline) are packed with real projects, 100+ practical tasks, and mentorship that doesn't feel robotic. You'll be creating, building, and earning while still laughing at our bad jokes.

And the best part? We don't just teach you and send you off.

Web3 & dApp Development – Full Stack Blockchain in 60 Days

Course Objective

To equip learners with the skills and tools to build decentralized applications using Ethereum smart contracts and connect them to web interfaces with modern Web3 libraries. Students will also explore NFT creation, smart contract deployment, and dApp monetization.

Duration: 60 Days

Format: Hybrid (Online & Offline at Eduden, Kolkata)

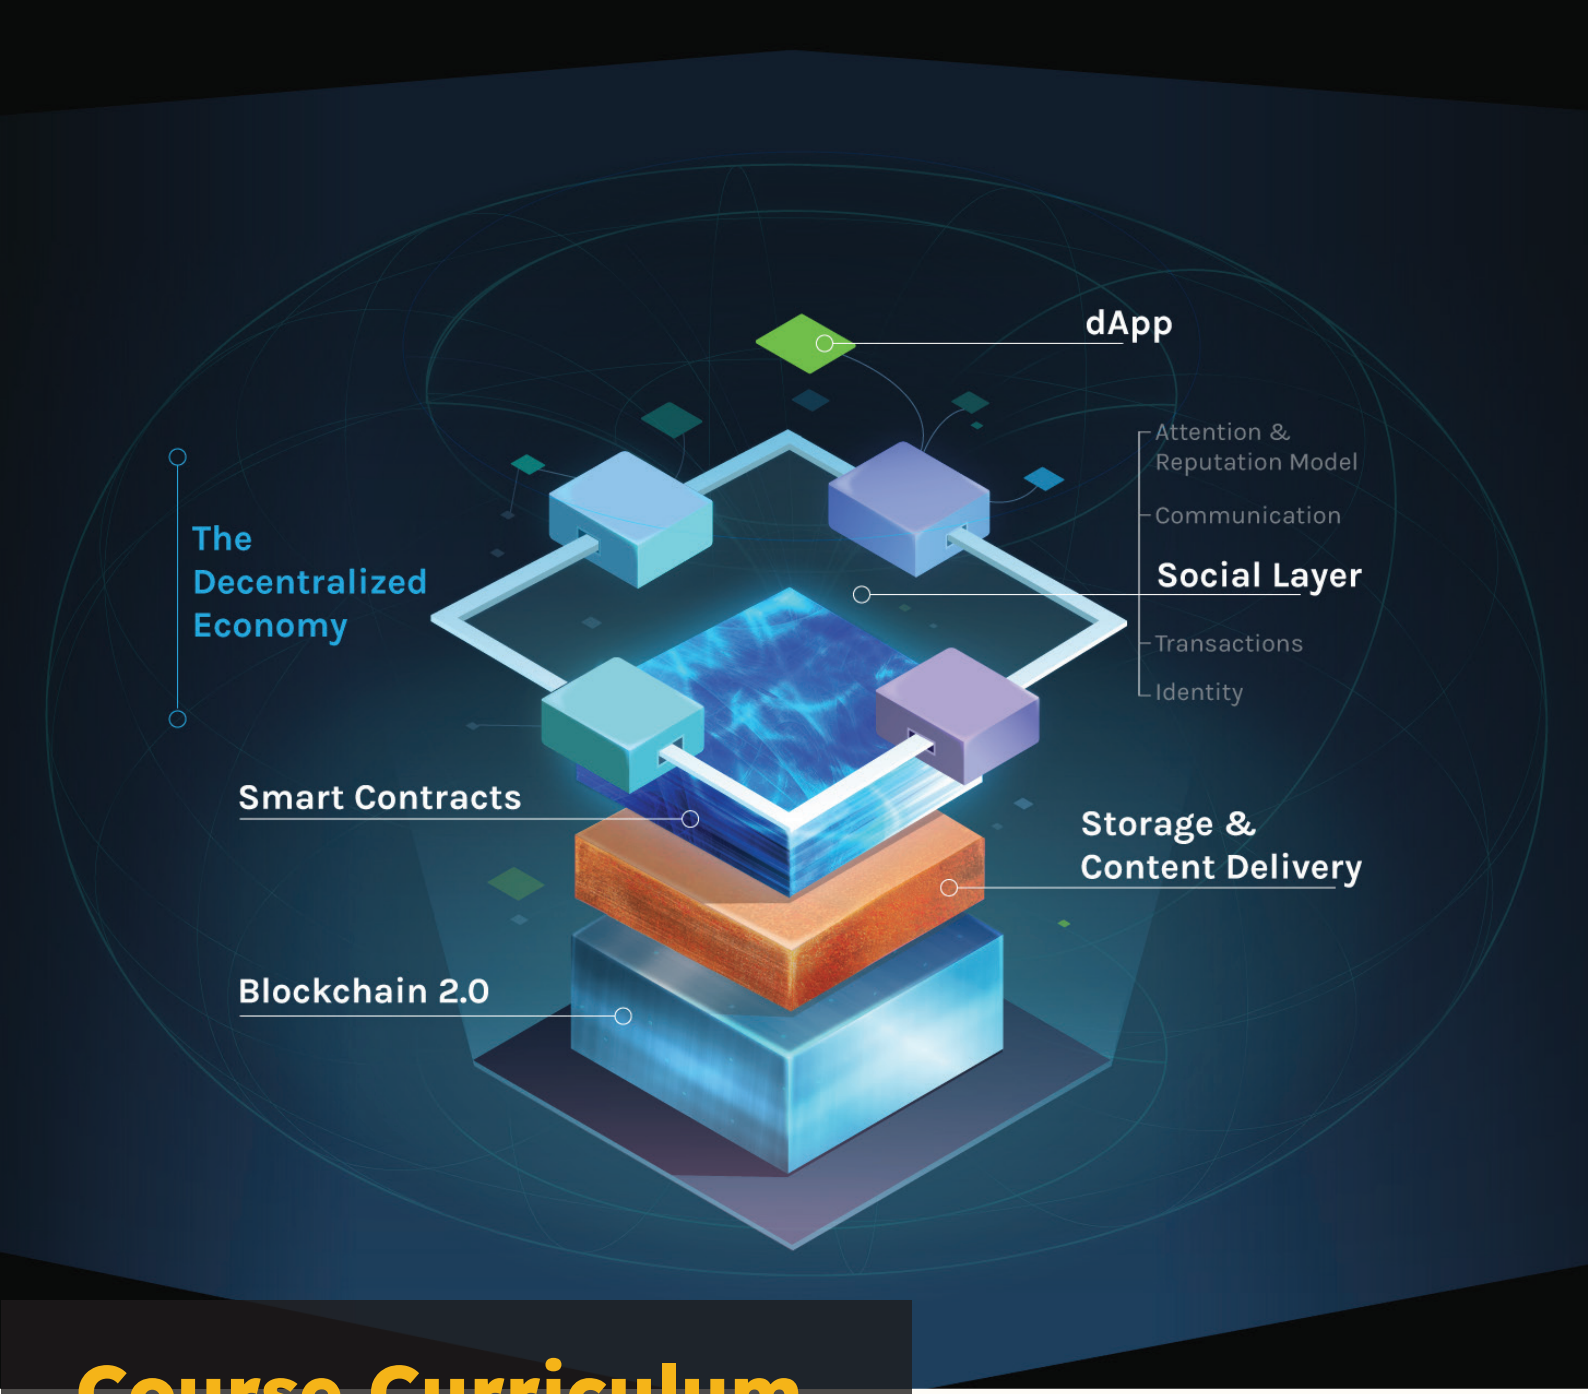

Level: Intermediate

Tools Covered: Ethereum, Solidity, MetaMask, Hardhat, web3.js, IPFS, OpenZeppelin

Who Can Join

- Frontend or backend developers (React/JS/Python preferred)
- Blockchain & crypto-curious learners
- Startup founders building Web3 MVPs
- Freelancers aiming to enter the NFT and DeFi world

Course Curriculum

Module 1

Web3 Fundamentals & Blockchain Basics

- What is Web3? How is it different from Web2?
- Public vs private blockchains
- Ethereum network overview
- Wallets, tokens, consensus, and gas fees
- Hands-on: Set up MetaMask and explore test networks

Module 2

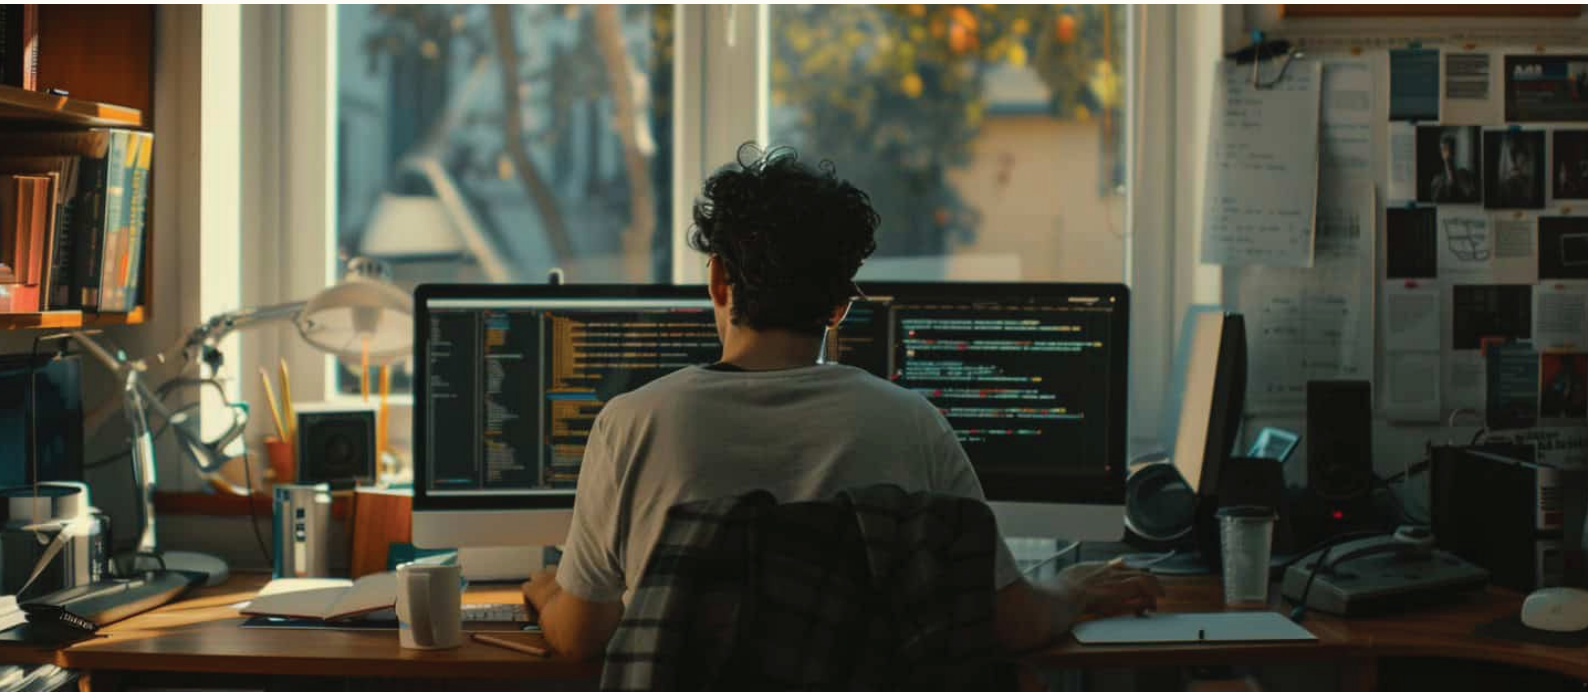

Smart Contracts & Solidity Programming

- Introduction to Solidity syntax
- Variables, mappings, structs, modifiers
- Functions, access control, inheritance
- Events, interfaces, and storage
- Hands-on: Write and deploy your first smart contract

Module 3

Smart Contract Deployment with Hardhat

- Project setup, compiling, and testing
- Local blockchain environment
- Deploy to testnets (Goerli, Sepolia)
- Use OpenZeppelin contracts (ERC-20, ERC-721)
- Hands-on: Deploy a custom token/NFT contract

Module 4

Frontend Integration with web3.js & ethers.js

- Connecting wallet to dApp
- Reading & writing to blockchain
- React + MetaMask integration
- UI updates from blockchain events
- Hands-on: Build a frontend to mint your own NFT

Module 5

NFTs, Tokens & DeFi Basics

- NFT standards (ERC-721 vs ERC-1155)
- Minting, metadata, and marketplaces
- Basic DeFi flows (staking, swaps, liquidity pools)
- Hands-on: Launch your NFT minting dApp with custom artwork

Module 6

IPFS, Gas Optimization & Security

- Store files on decentralized storage (IPFS/Filecoin)
- Gas optimization strategies
- Smart contract vulnerabilities (reentrancy, overflow)
- Hands-on: Secure and audit your own smart contract

Module 7

Final Project + dApp Deployment

- Capstone Project Options:
    1. NFT Marketplace
    2. Decentralized Voting App
    3. Token-based Membership dApp
- Deploy frontend to Vercel / Netlify
- Deploy contract to Ethereum testnet (or Polygon)
- Project walkthrough + GitHub submission

Certification

- Eduden Certificate in Web3 & Decentralized App Development
- Capstone Project + GitHub Portfolio Submission
- Optional: Mentorship on launching your own Web3 startup or freelancing path

Career Roles You'll Be Ready For

- Web3 Developer
- Smart Contract Engineer
- dApp Frontend Developer
- Blockchain Developer (Full Stack)
- NFT Project Builder / Consultant
- Freelance Web3 Engineer

Course Highlights

- 60 Days of Full Stack Web3 Training with Real Projects
- Best Web3 & Blockchain Development Course in India
- Learn Solidity, NFTs, MetaMask, Hardhat, Web3.js
- Certificate from Eduden – India’s Future-Ready Tech School
- Build & Deploy Production-Ready dApps
- Hybrid Format – Online & Offline at Eduden, Kolkata
- Ideal for Freelancers, Entrepreneurs & Developers
- Resume + GitHub + Interview Prep Support
